

22668 – LA-1000RFL-8/16 Operating Instructions & Precautions 11162003

Charging the Flashlight: This product is rechargeable. Please charge fully before first use to ensure optimal performance. Twist the flashlight head fully counterclockwise to access the charging ports. You may need to rotate the rubber port cover to access the ports. Plug the included charging cable into a USB power source and the charging port on the flashlight. A flashing green indicator inside the flashlight's USB port will change to solid green once fully charged.

Operation: Repeatedly pressing the power button cycles between high and low brightness modes and off.

Focus Flashlight Beam: Twist the flashlight head clockwise to focus and counterclockwise for wide beam.

Charging a Smartphone: Plug your device's charging cable into the smartphone and the other end into the USB port on the flashlight. **IMPORTANT:** Your charging cable must be plugged into your smartphone **prior** to plugging it into the flashlight for charging to begin.

Battery Replacement: This product is powered by an 18650 lithium-ion rechargeable battery. Over time, depending on charging cycles, the battery will degrade in performance or will no longer hold a charge. To replace the battery, unscrew the battery compartment cap at the base of the flashlight. Remove the battery and protective tube and replace it with a new 3.7v 2000mAh 18650 battery. Be sure to insert the battery into the tube and insert it into the flashlight with the raised end first. Screw the battery compartment cap back on tightly.

Warning! To prevent serious injury, including temporary or permanent loss of sight do not stare into the light, shine light into eyes or focus the beam using an additional lens. Keep away from infants and toddlers as this product contains small parts.

This product is not a toy! Use this light only as it is intended. Inspect before every use, do not use if parts are damaged, loose or missing.

Save these safety precautions.
