

Cage Parts List:

READ THESE NOTES FIRST:

Enlist A Friend: While the cage may be assembled by one person, a few steps may be easier with two people.

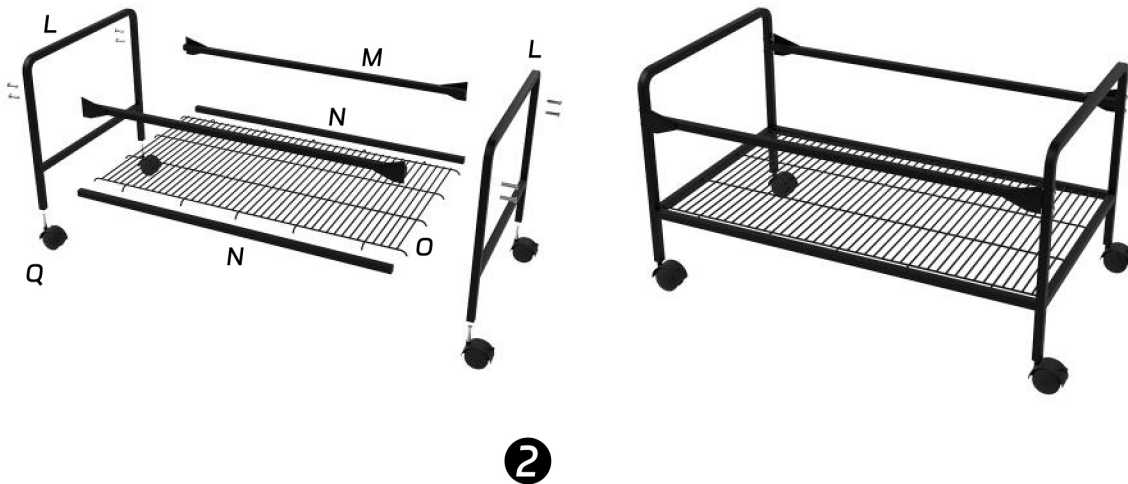

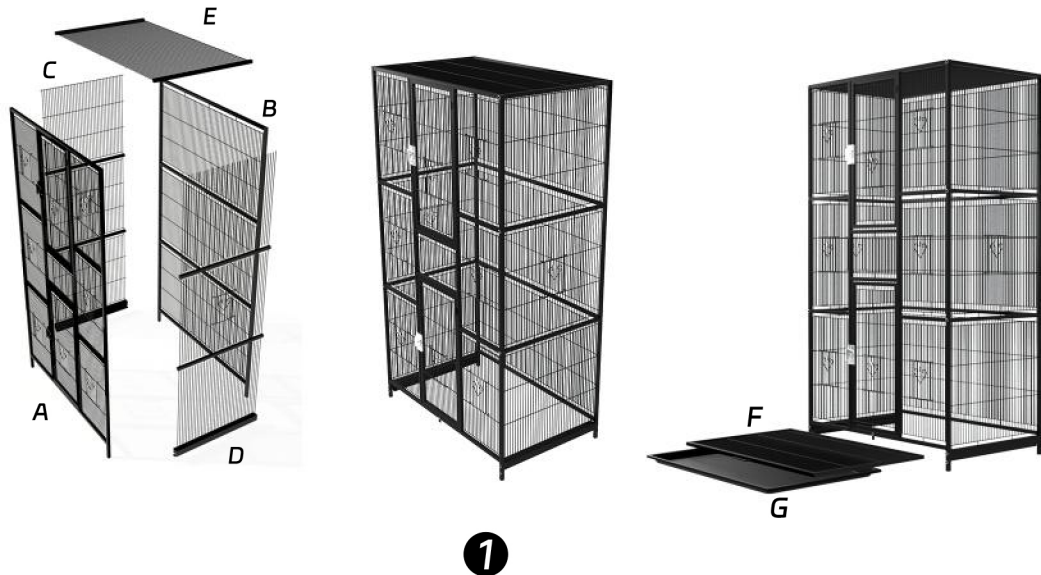

Count hardware: If the quantity of screw count is short, please contact seller.

Review all parts: If wires are bent, they may be straightened with needle nose pliers. For seriously damaged parts, please contact seller.

Tools: an allen wrench is include, you may use your own hand tools, but we do not recommend power drills, as the parts may be over-tightened and damaged or stripped. Seller is not responsible for this type of damage.

Review these instructions thoroughly before assembling the cage. If you require assistance, please contact seller.
