SAFE & NATURAL
FOR THE PLANTS & FISH IN YOUR POND

General Information:

Summit Clear-Water Barley Straw Extract is a concentrated, natural pond water treatment derived from pure barley straw. This concentrate begins working immediately to clear cloudy water and maintain a unique water environment. Use weekly or as needed to keep your water clear. Our formula contains no chemical additives, only pure barley extract and will not harm plants, fish, or the environment. You can use year-round but best results can be expected when treatment begins in the early spring and continues through the fall.

Directions for Use:

Best results are achieved when Barley Straw Extract is used in a preventative manner. After the first application, continue on a two week treatment schedule.

Apply directly into the pond water, preferably where the water is moving into the bulk of the pond. You may increase dose rates up to 50% for incredibly cloudy water.

ATTENTION: This specimen label is provided for informational use only. This product may not yet be available for sale in your state or area. The information found in this label may differ from the information found on the product label you are using. Always follow the instructions for use and precautions on the label of the product you are using

CLEAR-WATER BARLEY STRAW EXTRACT			
VOLUME Pond Size	TO START		MAINTENANCE EVERY 2 WEEKS
	1ST & 2ND WEEK	3RD & 4TH WEEK	
GALLONS	OUNCES	OUNCES	OUNCES
UP TO 500	1.00	0.50	0.75
501-1000	1.50	0.75	1.25
1001-1500	2.00	1.00	1.50
1501-2000	2.50	1.25	1.75
2001-3000	3.00	1.50	2.25
3001-4000	4.00	2.00	3.00
4001-5000	5.00	2.50	3.50
5001-6000	6.00	3.00	4.00
6001-7000	7.00	3.50	4.50
7001-8000	10.00	5.00	6.00
8001-10000	12.00	6.00	8.00
10000+	Add the additional applications based on total volume of pond and the corresponding dosage amounts.*		

*For Example: For a 15000 gallon pond, add the treatments for 10000 gallons with 5000 gallons.
 1st & 2nd Week = 12.00 oz. + 5.00oz. = 17 oz.
 Follow this formula for other situations.
