

INTRODUCING NEW PRODUCTS TO THE SENTINEL® CARE™ LINE OF NUTRITIONAL SOLUTIONS

We're passionate about protecting your horse's well-being, so we created Sentinel® Care™, a line of equine diets and supplements scientifically designed with a specific solution in mind. These products are formulated to address your horse's developmental, physiological, digestive, metabolic or performance concerns.

These specialized equine nutritional solutions target a specific need. We've harnessed the research and science of equine nutrition to help every horse maintain optimum health.

When you select Sentinel® Care™, you can be confident that you've made the best nutritional choice for your equine partner. Our commitment to your horse means providing scientifically advanced nutrition to maintain digestive health, provide immune support and sustain whole body wellness.

Protect your horse's nutritional health at every life stage with Sentinel® Care™ equine solutions, the Guardian of Equine Health. Because it's our passion to protect yours.

Kent Nutrition Group (KNG) is excited to announce the expansion of the Sentinel® Care™ product line. These new product introductions will replace some current supplement products in the Winning Touch® and Blue Seal (East) product families. These exciting new products will be available in the January/February 2024 timeframe.
