

Classic's  
**Lime Sulfur Cream**

With Aloe & Essential Oils

**For Treatment of :**  
Mange • Ringworm • Fungus • Hot Spots

**Description:** Lime Sulfur Cream is for treatment of non-specific dermatitis and parasites in dogs, cats, puppies, and kittens. Antimicrobial and antifungal properties of lime sulfur treat mange, ringworm, fungus, and scabies. Essential oils and cream base promote hair growth and relieve dry skin.

**Warning:** Keep out of reach of children. Do not allow animal to ingest. Apply a protective collar, if necessary, to prevent ingestion.

**Directions:** Apply Lime Sulfur Cream over the affected area until the area is fully covered. Treat once daily for one week then twice per week for two more weeks. If needed, continue to use every week for additional weeks or as directed by your veterinarian. For better results, use in conjunction with Classic's Lime Sulfur Dip or Classic's Lime Sulfur Spray.

**Caution:** For topical and extrenal use only. Avoid contact with eye and mucous membranes. If eye contact or skin irritation develops, rinse the applied area with water for at least 15 minutes. If ingestion occurs, rinse the mouth with clean water and offer large amonts of fluids. Stop treatment and contact your veterinarian.
