

# Easy and Simple!

## How to Use

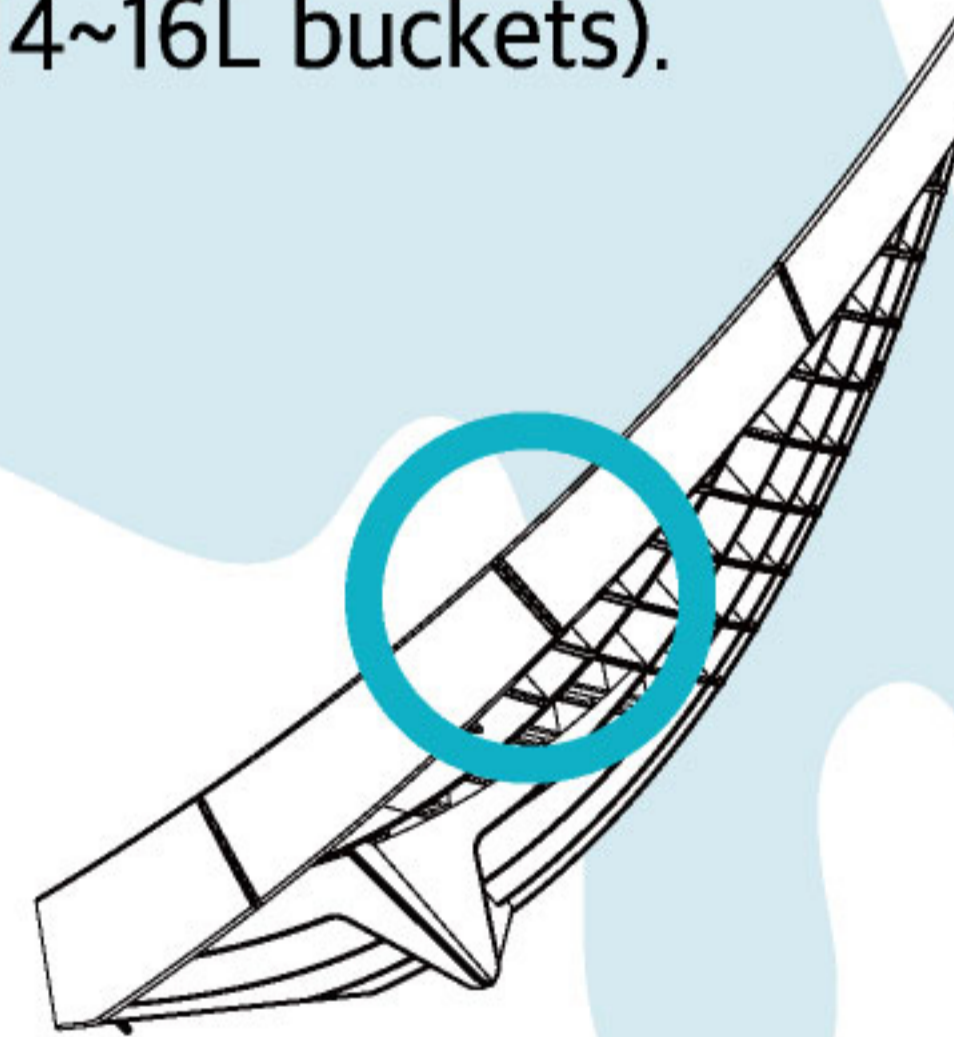

Insert upside down  
and flip

## TIPS

### Adjustable point

You can cut as you want  
when your bucket is tight  
(Mitt Slide is designed  
for 14~16L buckets).

### Rotate to fit

Every bucket is slightly oval.  
Diameter of handle is wider,  
so vertical position can be better  
when your bucket is  
slightly loose.
