

Pressure-Pro®

EAGLE II SERIES

Ergonomic Design for easy portability, with ideal handle height and balance point

Dash panel with integrated gun, wand, and nozzle storage allows quick, easy access to all accessories

Easy access to inlet and outlet fittings for simple hookup

Dual-padded, shock-absorbing feet absorb engine and pump vibrations, so the machine does not walk

Industrial-duty Honda/Kohler engines with Triplex plunger pumps, and external unloaders with extended bypass loop for heavy-duty use

High-grade aluminum frame with weld-free design eliminates breakable welds and weak points

Oversized, airless tires never go flat, so your equipment is ready to work when you are

Extra-strong, cold-rolled, hardened steel axle does not bend or break due to incidental dropping while loading and unloading

Easy pull design, with ideal balance point and handle at optimal height

Large flat free tires

Grey hose

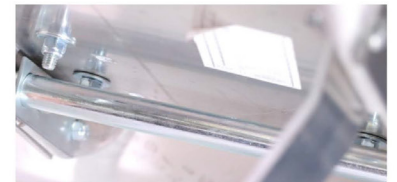

Dash panel with easy nozzle access

Easy access to inlet/outlet fittings

Gun/wand holder

Extra strong cold rolled, hardened steel axle
