

Thank you for your purchase!

To protect your tree during shipment, leaves are packaged flat. Our greenhouse gurus share helpful hints on how to bring your new addition to "life"!

When in doubt, our online photos are a good reference to replicate the natural counterpart!

Dust occasionally with a duster or damp cloth.

Reshape branches by gently bending the inner bottom branches and work upward.

Leaves near the top can be left straight for a natural look.

Leaves may fall during the shaping process, simply reattach to their branch.

Drop in your favorite planter, basket, or container to create your own unique style.

the mod greenhouse.

bringing the joy of plants to your home. no green thumb required.
