### EcoStrong's Holding Tank Pod is the Gold Standard in "Drop-In" RV Tank Treatments.

*EcoStrong's Holding Tank Pods* combine ALL the best features found in today's cutting-edge odor-eliminating technologies with billions of enzyme-producing bacteria. The result; is an innovative, longer-lasting, more powerful tank and system solution. Our non-clumping powder not only has superior odor elimination but more powerful waste liquefaction and better sensor cleaning.

When used as directed these Pods will not clump in the tank thereby offering faster and longer odor elimination.

Suitable for both gray and black water tanks.

*EcoStrong's Holding Tank Pods* are all-natural and safe for all types of plumbing and pumping systems.

**DOSAGE:** Black & Gray Water: Use 1 pod per 40 gallons of tank capacity. For Best Results Treat After Pump Out. Dosage based on 2 persons with average use. Adjust according to use conditions.

#### DIRECTIONS FOR USE:

Use only 1 pod per flush. If your tank is larger than 40 gallons, repeat steps 1, 2 & 3.

- 1) Fill the toilet with one to two gallons of water.
- 2) Drop one pod into the toilet and let dissolve.
- 3) Flush once dissolved and refill the toilet with a few inches of water.

**NOTE:** The use of boiling water, bleach, anti-bacterial, or other chemicals will negatively impact performance.

Completely reclose the bag after use. The pods may absorb moisture from the air, causing them to stick together in the bag. Do not store in direct sunlight.

**Ingredients:** odor inhibitor, seven strains of natural bacteria, specialized enzymes, micronutrients, biosurfactants, PVA film.

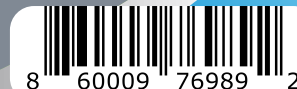

**Warning:** Keep out of reach of children. Do not ingest. Wash hands thoroughly after each use. Keep out of eyes and/or open sores. May cause eye irritation. If irritation occurs rinse eyes thoroughly with water for several minutes. If irritation persists, seek medical attention. **Storage:** Do not freeze.
