 Dreieck muss fest am Balken befestigt werden.
 Accertarsi che la piastra triangolare sia in battuta con l'asse

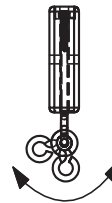

WARNING: For your child's safety, orientate the swing hangers as shown to ensure your swing will have proper swing motion when installed. Failure to do so could result in premature failure of the swing hanger or swing chain.

ATTENTION : Pour la sécurité de votre enfant, orientez les suspentes de la balançoire comme indiqué pour assurer un mouvement de balancement approprié, une fois la balançoire installée. Le non-respect de cette consigne peut entraîner la défaillance prématurée de la suspente ou de la chaîne de la balançoire.

ADVERTENCIA: Por la seguridad de los niños, oriente los soportes para columpio como se muestra en las figuras. De este modo, el columpio se moverá correctamente cuando esté instalado. De no ser así, podría producirse un fallo prematuro en el soporte para columpio o la cadena.

WARNUNG: Aus Sicherheitsgründen müssen die Schaukelabhängler wie in der Abbildung gezeigt ausgerichtet werden, um eine korrekte Schaukelbewegung zu gewährleisten. Bei Nichtbefolgung dieser Anweisung kann es zum vorzeitigen Versagen der Schaukelabhängler oder der Schaukelkette kommen.

AVVERTENZA: per la sicurezza dei bambini, orientare i ganci per altalena come mostrato in figura per garantire un movimento sicuro dell'altalena una volta montata. In caso contrario si potrebbe assistere a un guasto prematuro del gancio o della catena dell'altalena.

PRIMA DI PICCHETTARE LA POSIZIONE FINALE DEVE
ESSERE UNA SUPERFICIE PIANA

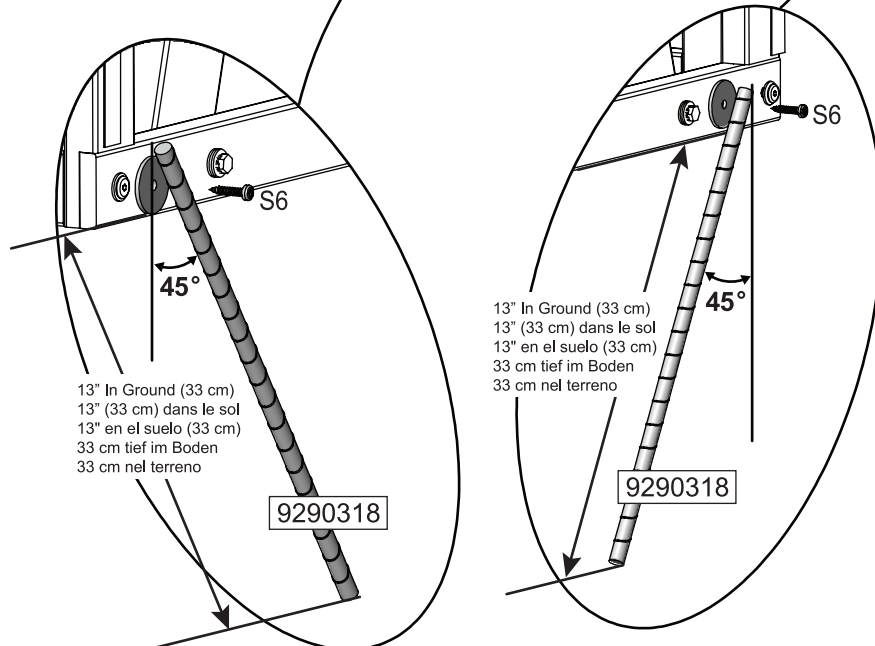

Warning! To prevent tipping and avoid potential injury, stakes must be driven 13" (33 cm) into ground. Digging or driving stakes can be dangerous if you do not check first for under-ground wiring, cables or gas lines.

Attention ! Afin d'éviter le basculement et les blessures potentielles, les piquets doivent être enfoncés 13" (33 cm) dans le sol. Creuser ou enfoncer des piquets peut être dangereux si vous ne vérifiez pas d'abord le câblage souterrain, les lignes ou les conduites de gaz.

¡Advertencia! A fin de evitar vuelcos y posibles lesiones, las estacas deben clavarse a una profundidad de 13" (33 cm). Clavar las estacas o introducir las en el suelo puede ser peligroso si no se comprueba antes la ausencia de conductores, cables o tuberías de gas subterráneos.

Warnung! Um mögliche Verletzungen durch ein Umstürzen des Spielhauses zu verhindern, müssen die Bodenanker 33 cm tief in den Boden getrieben werden. Bevor Sie mit dem Graben der Löcher für die Bodenanker oder dem Einschlagen der Bodenanker beginnen, prüfen Sie zunächst, ob unterirdische Stromleitungen, Kabel oder Gasleitungen unter dem Spielhaus durchführen.

Avvertenza. Per prevenire potenziali incidenti, inserire i paletti per 33 cm nel terreno. Scavare o posizionare i paletti può essere un'attività pericolosa se non si controlla l'eventuale presenza di cablaggi elettrici, cavi o linee del gas nel terreno.
