- 2 heat settings & flame only function
- Adjustable flame color & brightness
- Automatic thermal safety shut off
- CSA certified

*Shown in the Cherry finish*

The Sienna electric fireplace offers the perfect blend of style and functionality to any room it's placed in. The slim, transitional mantel is made out of MDF material, and is available in seven striking finishes. The clean lines, fluted pilasters, and crown molding are a few designer details that add character to this handsome frame.

The LED insert produces 5,115 BTUs of fan-forced heat that quickly warms a 210-sq. ft. room. An enchanting flame display dances across the back of the firebox, creating movement that is sure to catch your eye. Embers of light glaze across the logs within, adding more depth to the realistic log display. The brightness, flame color, and heat settings can be adjusted at the push of a button, and the flames can operate without heat—perfect for use throughout the year.

Fireplace enthusiasts will enjoy the convenience of an electric unit. Its flexible placement allows you to move it from room to room as needed. It will never produce ash or soot, and the logs will never need to be replenished. No need for professional installation; simply plug it in and enjoy!
