

DIRECTIONS: Flush one water soluble pack down any toilet connected to the septic system or holding tank. **EcoStrong's Septic Tank Packs** can also be used in portable toilets, boats, RVs, aircrafts, and public transportation restrooms. Use as per dosing table below. The use of other odor control products or chemicals will negatively impact the **Septic Tank Pack's** performance.

DOSING FOR HOLDING TANKS:
Use one pack after each pump out.

DOSING FOR SEPTIC SYSTEMS	
TANK SIZE (IN GAL.)	DOSAGE
Less than 1,500	1 per month
1,500 - 5,000	3 per month

NET WT. 24 X 1 OZ (680 GRAMS) PACKS

EcoStrong Septic Tank Packs are a preventative care product, safe for all types of systems and plumbing. Continuous use establishes thriving colonies of active microbes, which maintains a healthy septic system and a free-flowing leach field.

If a problem occurs, such as slow or gurgling drains, consider using **EcoStrong's Drain & Leach Field Blast**, a more concentrated version designed for early septic issues. If the problem is more severe, such as a pooling leach field, consider using **EcoStrong's Septic Liberator**, an industrial strength solution designed for a failing system and field.

NEVER FORGET A TREATMENT

WARNING: KEEP OUT OF REACH OF CHILDREN.

Do not ingest. Wash hands thoroughly after each use. Keep out of eyes and/or open sores. May cause eye irritation. If irritation occurs rinse eyes thoroughly with water for several minutes. If irritation persists, seek medical attention.

STORAGE: DO NOT FREEZE.
