

ZEE LINE

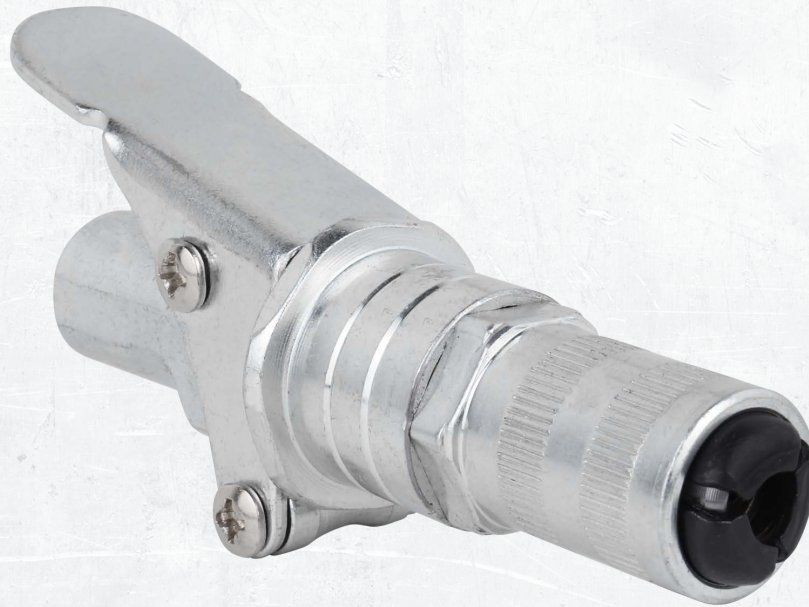

by MILTON™

ZELC-100

12,000 PSI Locking Grease Coupler

Introducing the Zeeline by Milton® Locking Grease Coupler – the ultimate solution designed with professionals in mind, offering unparalleled convenience and performance for your greasing needs. Designed for ease of use, simply activate the thumb-operated lever to securely attach to any Zerk fitting. When complete, activate again the thumb-operated lever to effortlessly disengage the coupler. With the Zeeline by Milton® Locking Grease Coupler, greasing has never been easier or more efficient.

Elevate your greasing to new heights of performance and convenience – choose the Zeeline by Milton® Locking Grease Coupler and experience the difference for yourself.
