## INSTALLATION INSTRUCTIONS

**PART No.**

**FB21358**

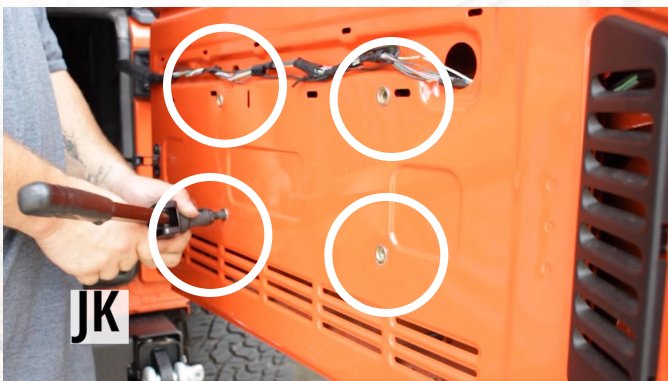

**22+Bronco/07-18 JK/18+JL/22+JT**  
**Tailgate Table**

**1) PREPARE**

Open your vehicle's tailgate, and gently and evenly remove the plastic accessory panel, revealing the mounting locations, if applicable.

With an M6 nutsert tool, install the 4 included nutserts in the shown holes.

**Note:** JK owners will need to ensure the table is level with the shown edge before drilling.

**JK**

**2) INSTALL**

With the help of a friend, hold the table up to the tailgate, and with a 4mm hex wrench, install the table with the included hardware. For Bronco owners, you will need to use the included spacers to keep the table from scratching the tailgate.
