ASSEMBLY

Get Ready:

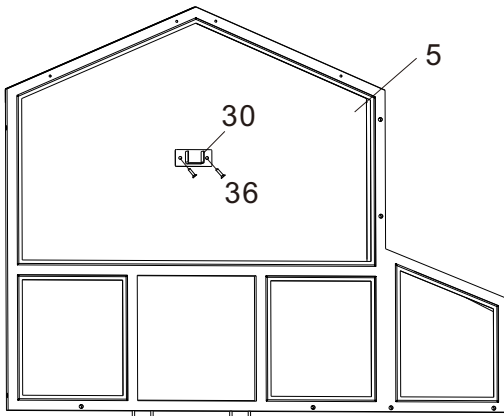

- Follow Diagram 1, attach 2pcs of #30 (Roosting Bar Holder) to the wood board side of Panel #1 (Coop Right Panel), using the pre-drilled holes.
- Repeat above step, installing one #30 at the designated positions of #3 (Coop Back Panel) and #5 (Coop Front Panel) respectively, and installing two #30s on #6 (Coop Left Panel). Please refer to below Figures (2), (3), and (4).

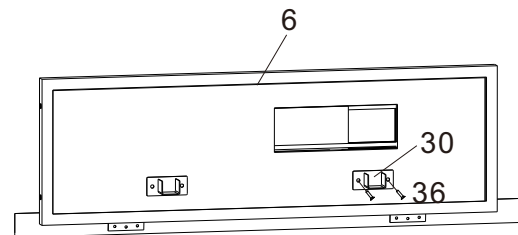

(1)

(2)

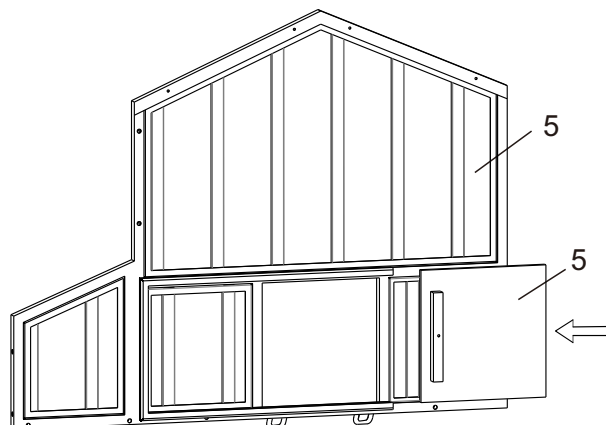

(3)

(4)

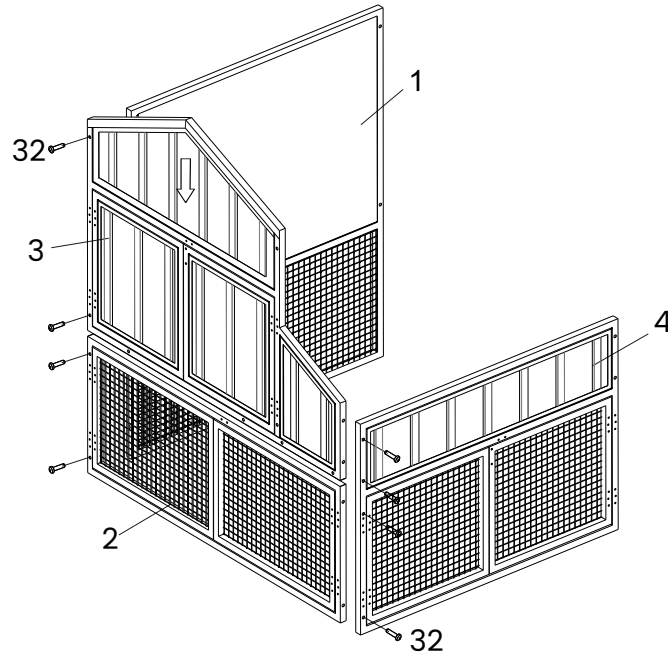

- Place the sliding door on Panel #5 as shown in the below diagram, paying attention to the direction of the sliding door.

ASSEMBLY

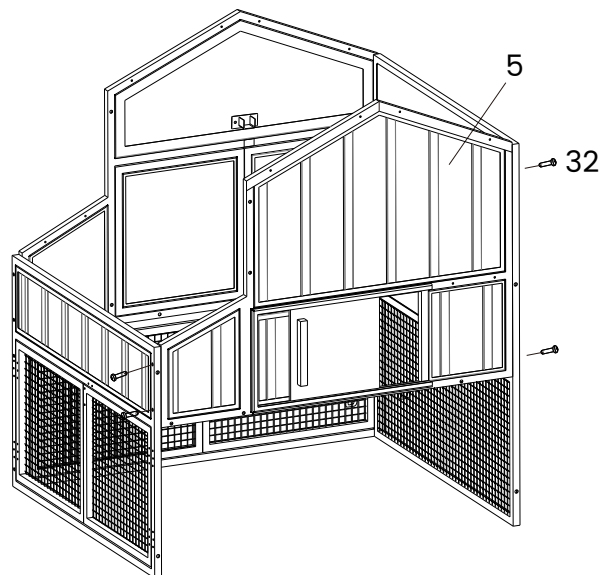

Step 1

- Assemble Panels #1, #2, #3, and #4 firmly using Bolts #32. Panel #3 should be directly above Panel #2.

Step 2

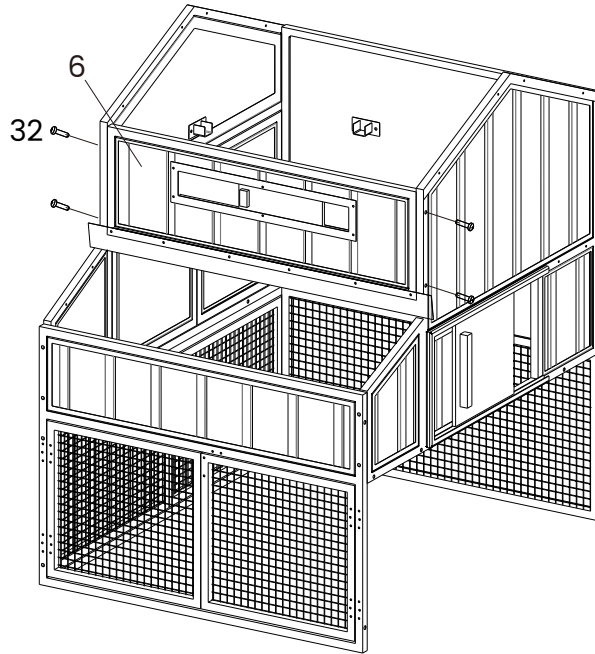

- Securely install Panel #5 as below diagram using 4 pieces of Bolt #32.

ASSEMBLY

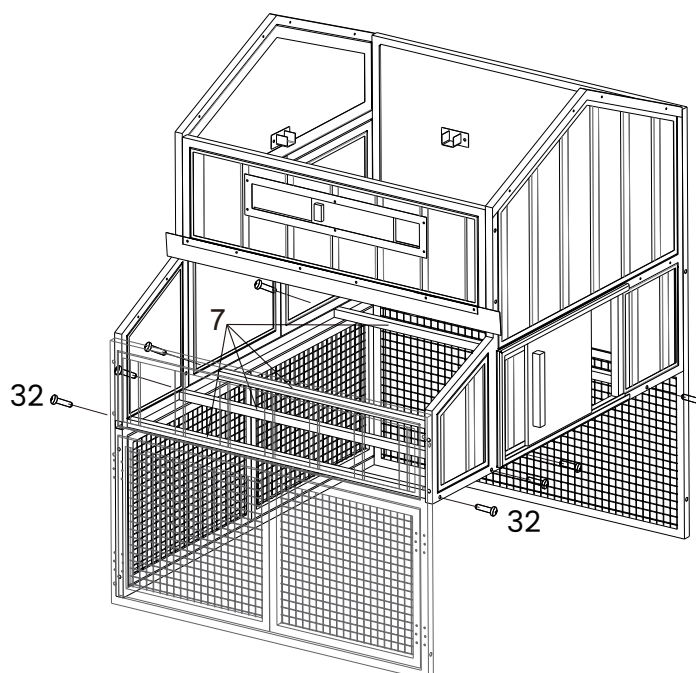

Step 3

- Attach Panel #6 using 4 pieces of #32.

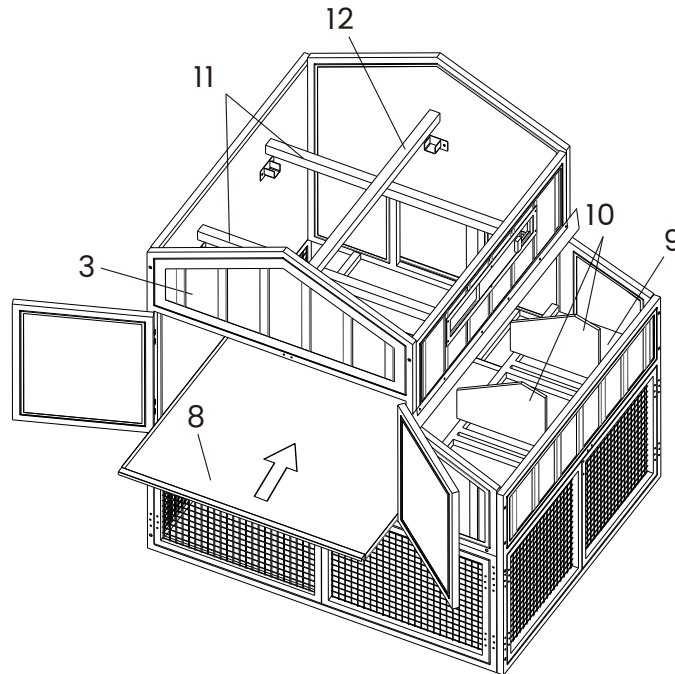

Step 4

- Install the 4 pieces of #7 (Tray Support Bar) to the illustrated positions using Bolts #32.

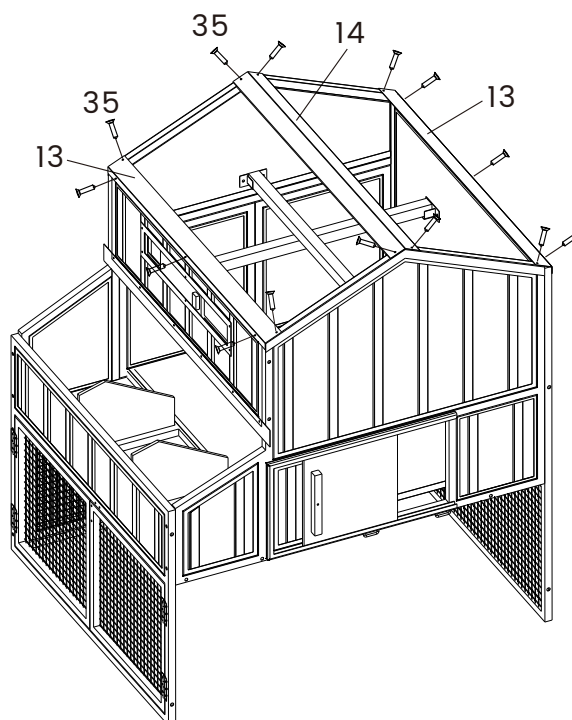

Step 5

- Open the door of Panel #3, and push #8 (Tray) from the doorway into the chicken coop.
- Place #9 (Nesting Box Floor) and #10 (Divider) in the Nesting Box as shown in the diagram.
- Place The Roosting Bars (#11 and #12) on the pre-fixed Roosting Bar Holders as below diagram.

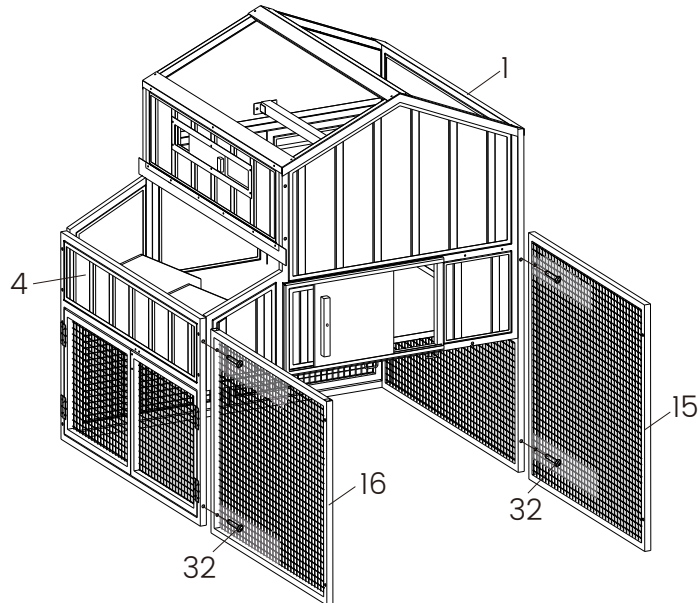

Step 6

- Install 2 pieces of #13 (Roof Shoulder Support) and 1 piece of #14 (Roof Peak Support) using Self-Tapping Screws #35 through the pre-drilled holes respectively.

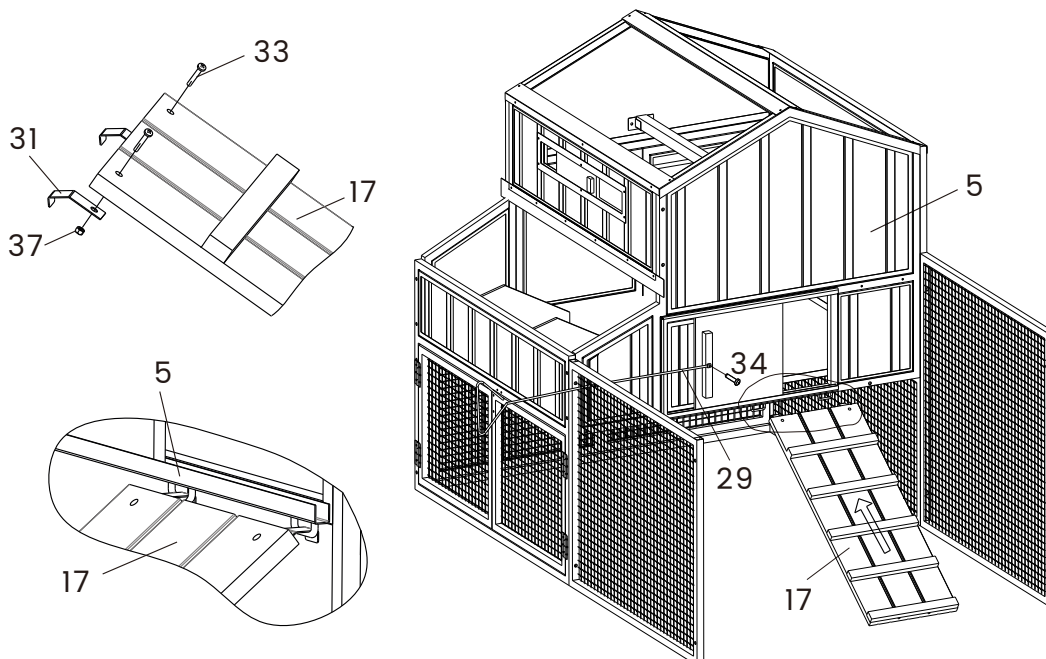

Step 7

- Install #15 (Pen Right Panel) onto Panel #1 using 2 Pieces Bolt #32, and same way, install #16 (Pen Left Panel) onto Panel #4 using Bolt #32.

Step 8

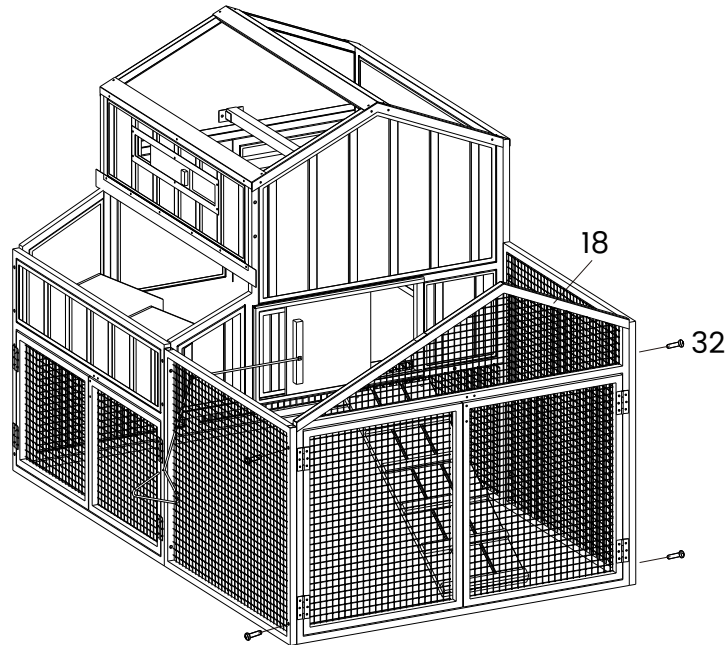

- First, install 2pcs of #31 (Ramp Hook) onto #17 (The Ramp) using Bolts #33 and Nuts #37, then hang the assembled unit onto the hook at the bottom of Panel #5.
- Insert one end of #29 (Access Door Handle) through the mesh of #16, then secure it to the sliding door on Panel #5 using Bolt #34.

ASSEMBLY

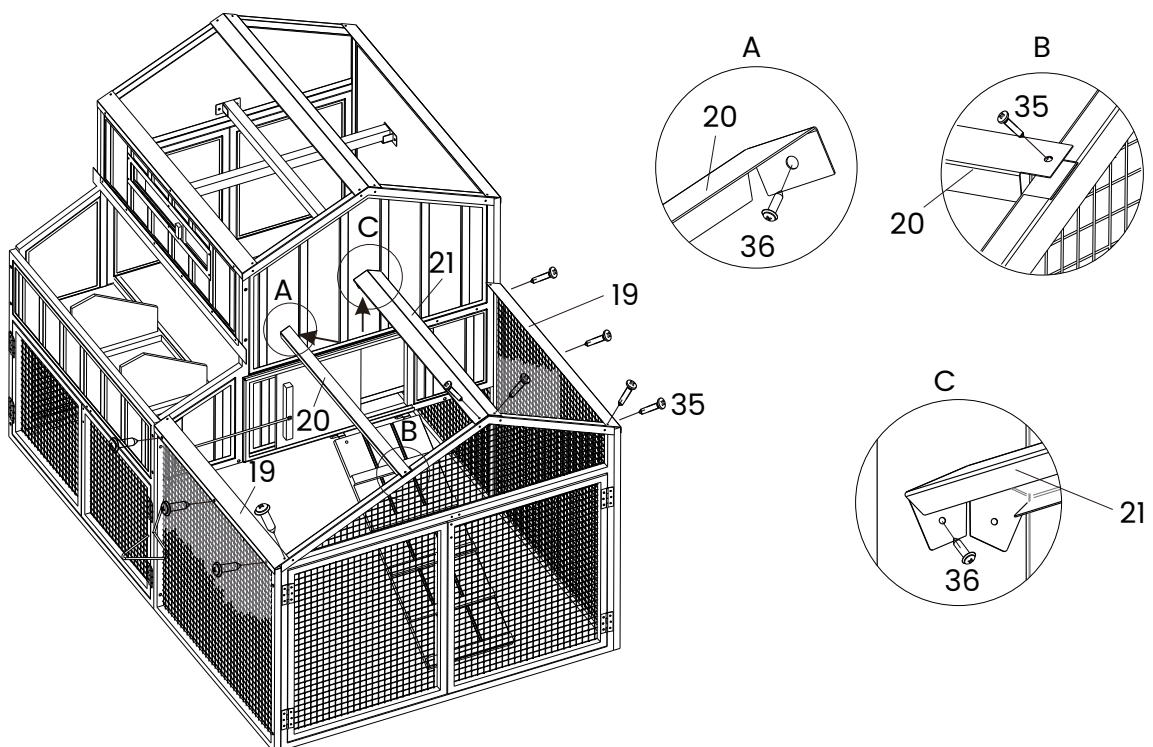

Step 9

- Securely install #18 (Pen Front Panel) using 4 pieces of Bolts #32.

Step 10

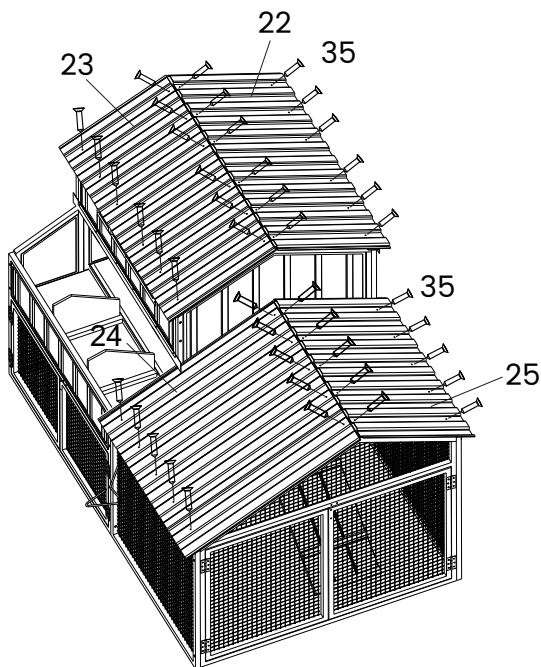

- Install 2 pieces of #19 (Pen Roof Shoulder Support 1), 1 piece of #20 (Pen Roof Shoulder Support 2) and 1 piece of #21 (Pen Roof Peak Support) using Screws #35 & #36.

Step 11

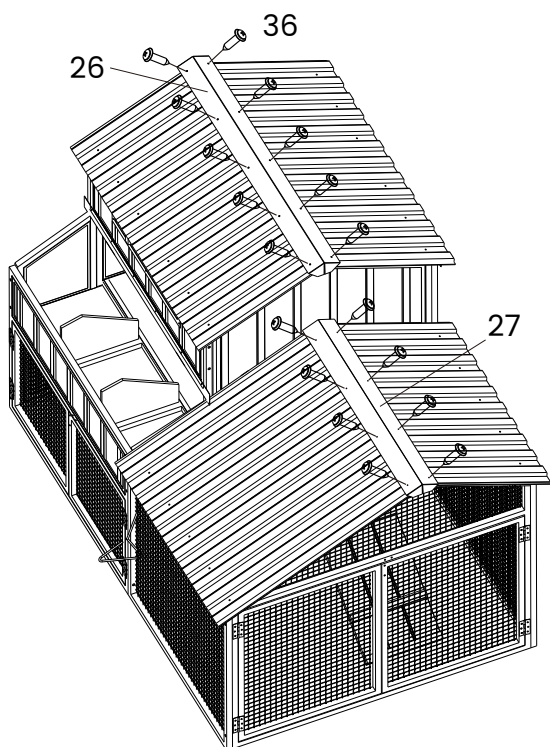

- Arrange the four roof panels #22, #23, #24, #25 as shown in the diagram, and securely install them, one by one, using Screws #35 through the pre-drilled holes.

Note: #22 and #23 should be placed centered.

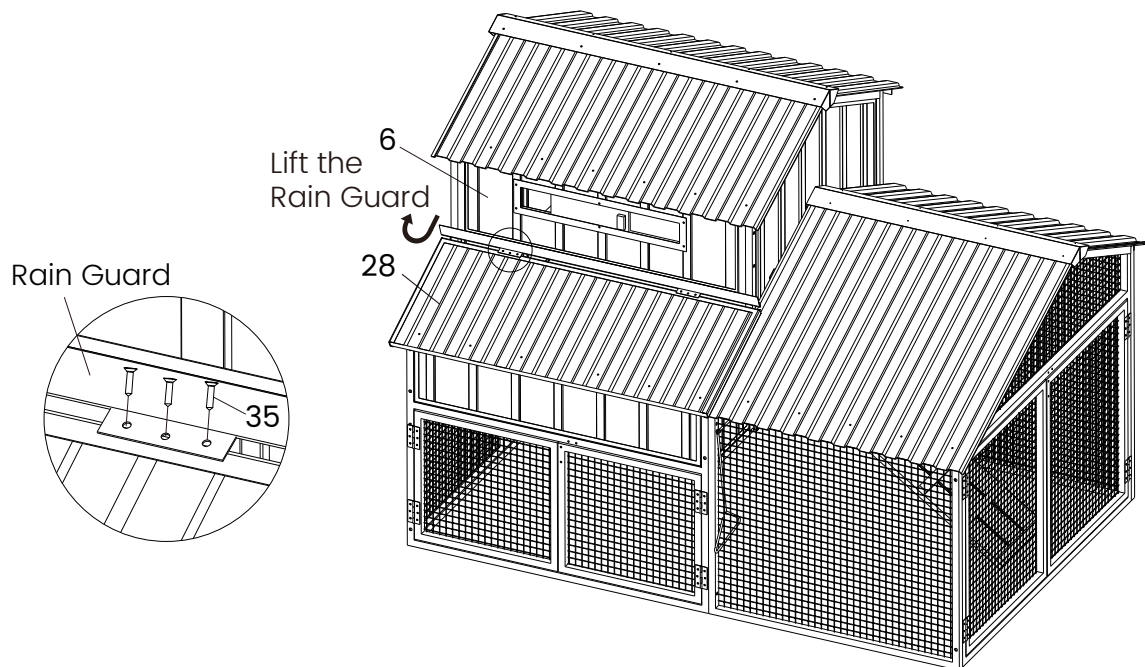

Step 12

- Install Roof Caps #26 and #27 onto the top of the roof using #36 through the pre-drilled holes.

Step 13

- Lift the Rain Guard of Panel #6, then place #28 (Nesting Box Roof Panel) centered from left to right, and secure it firmly with #35 as shown in the diagram.

The entire assembly is now completed
