

# Kayak Buying Guide

See the Full Assortment of Kayaks @ [TractorSupply.com](https://TractorSupply.com)

## Sit-On-Top Kayaks

- Easy to climb in and out of from water
- Ideal for keeping cool in warm water
- Scupper holes drain water from the deck

## Sit-In Kayaks

- Must climb in from shore
- Ideal for staying warm in cooler weather
- More efficient to paddle in

## Angler Kayaks

- Rod holders and storage for fishing gear
- Stability and size allow you to fish in out of reach areas
- Cost effective compared to motorized boats

## Tandem Kayaks

- One kayak for two people
- Easier to train new paddlers
- Wide hulls provide more stability

## Prioritize features that best fit your needs

### Size/Weight Capacity:

*The weight and size of your kayak can impact performance. Shorter kayaks are maneuverable, while wider kayaks offer more stability.*

### Storage Capacity:

*Consider a kayak with enough storage to support all your gear for Life Out Here.*

### Attachments:

*Depending on your goals, attachments can range from additional rod holders to trolling motors.*
