

FRASER HILL FARM®

Christmas Solar Lamp Post Signs

Greet your guests warmly with a Christmas Lamp Post from Fraser Hill Farm. Standing 54 inches tall, our Santa North Pole sign lets your guests know if Santa Claus is IN or OUT. The festive red and white striped pole is topped with a solar-powered finial.

This unique decoration is crafted from high-quality iron, brightly painted, and then finished with a weather-resistant coating that will last season after season. A round, sturdy base stabilizes your lamp post (optional ground stake included for lawn or garden use).

Place this solar lamp post sign anywhere outdoors - open porch, entryway, walkway, lawn, or garden - to charge in the sun by day and shine in the dark by night.

- Assembly required
- Ground stake for lawn & garden display
- 2 AAA Ni-MH solar batteries included
- 1-year warranty
