with High-Quality
Protein for Dogs and
Weaning Puppies

- **Supports Healthy Skin & Coat with Omega 6 fatty acids**
- **Supports Transition to Solid Food for Weaning Puppies**

Esbilac® Healthy Development

Nutritional Supplement for Dogs and Weaning Puppies

For weaning and growing dogs up to 6 years, powder can be sprinkled dry on top of your dog's food, mixed with water to soften food, or be served separately as a liquid snack. Gently introduces nursing/weaning puppies to solid food. Once mixed should be lapped from a bowl.

- **Crude Protein** – Essential for muscle growth and supports optimal development and overall health
- **Crude Fat** – Primary energy source in a dog's diet
- **Crude Fiber** – Helpful in maintaining gut health and stability

GUARANTEED ANALYSIS

Crude Protein, min.	26.00%
