

FULL BOAR 35TON FULL BEAM LOG SPLITTERS

FULL BOAR

GO FULL BOAR™

Rugged. Affordable. Durable.

Full Boar 35Ton Full Beam log splitters

Unlock the power of efficiency and precision with Full Boar 35Ton Full Beam log splitters, catering to both commercial and residential endeavors. Effortlessly handle wood with the H6135FB and tackle any job with ease. Designed with professionalism in mind and offering superior quality and functionality featuring slip on 4-Way and 6-Way blades, 32" large log tray, and a hydraulic log lift. Full Boar Log Splitter seamlessly meet the demands of your diverse needs, ensuring every split is executed with unmatched expertise providing excellent usability. Elevate your wood processing experience with our industry-leading solutions. Go FULL BOAR!

FEATURES & BENEFITS

▲ BOX-shape Beam

Experience unparalleled strength and durability with our BOX beam Design Log Splitter. Engineered to outperform traditional I beam designs, our splitter ensures superior stability and power, providing you with the confidence to tackle even the toughest logs. Elevate your wood splitting game with the unmatched strength of our BOX beam design.

▲ 4-Way Blade / 6-Way Blade Feature

The 4-way and 6-way blades for log splitters offer increased efficiency and versatility compared to standard blades. Both can split logs into multiple sections with a single pass, reducing the number of cuts needed to process a log. Speed up the overall splitting process.

The ability to split logs into multiple sections allows for greater flexibility in the size and shape of the resulting firewood, catering to different heating needs or equipment requirements.

By dividing the logs into smaller pieces, these blades can reduce the strain on the log splitter's engine and hydraulic system, potentially extending the lifespan of the machine.

the 4-way and 6-way blades offer increased efficiency, speed, versatility, and reduced strain compared to standard blades, making them popular choices for those looking to streamline their log splitting operations.

▲ 4-Way Blade / 6-Way Blade Switch

Experience effortless versatility with our log splitter's interchangeable 2-Way, 4-Way, and 6-Way blades. Switching blades has never been easier! No tools needed, seamlessly switch between cutting options to meet your diverse needs, ensuring efficient and tailored log splitting every time. Elevate your wood processing experience with ease and precision.

▲ Innovative Hydraulic Wedge Adjustment

Revolutionize your wood splitting process with our log splitter's hydraulic wedge adjustment, offering a remarkable 3.55 inches of vertical wedge position range. This cutting-edge feature empowers operators to effortlessly adjust the wedge height, guaranteeing uniform center splits regardless of log size. Say goodbye to uneven cuts and hello to consistent, professional results.

▲ Hydraulic Log Lift

Say goodbye to back strain with our hydraulic-powered log lift, designed to effortlessly hoist logs up to 700 lbs with ease, while doubling as a convenient work table. It simplifies the loading process with a simple lever pull. Enjoy the convenience and comfort of hassle-free wood processing with our innovative hydraulic log lift feature.

▲ Fast Cycle Time:

Oversized hydraulic components provide the shortest cycle time in its class.

A 2" cylinder rod, 3/4" hoses help to reduce cycle time to 17.7 seconds. No more wasted time between rounds!

▲ 32" Log Tray

More sizable tray provides enough room to accommodate larger and longer logs, reducing the need for cutting them down before splitting, making the whole process of dealing with massive logs simplified and uncomplicated.

▲ Hydraulic oil filter is mounted inside the reservoir, eliminating damage from falling logs and operator entanglement.

▲ Dual end cylinder support for equal weight distribution and wear reduction.

GO FULL BOAR™

FULL BOAR products are the perfect combination of price and performance, offering durable and affordable products engineered to consistently get the job done.

SPECIFICATIONS

| | |
|------------------------------------|--|
| Model # | H6135FB |
| Splitting Force | 35 ton |
| Log Capacity | 24" |
| Engine | Full Boar |
| Displacement | 306 cc |
| Gross Torque | 13.6 ft-lb / 3000rpm |
| Fuel Capacity | 1.58 Gallon |
| Engine Oil Capacity | 1.16 qts |
| Starting System | Recoil |
| Control Valve | Auto Return with Adjustable Detent |
| Pump Size | 18 GPM |
| Hydraulic Cylinder Bore | 5" |
| Hydraulic Cylinder Stroke | 23.5" |
| Hydraulic Rod Diameter | 2" |
| Cylinder Cycle Time | 15 seconds |
| Hydraulic Capacity | 6.6 Gallon |
| Hydraulic Oil Required to Fill | 7.4 Gallon |
| Hydraulic Oil Included | Pre-filled with premium hydraulic fluid |
| Replacement Filters | Built-in, Sealed, Suction Filter, Suction Screen |
| Beam | Heavy duty Box-shape formed construction |
| Wedge Size | 12" |
| Wedge Style | 2-way, 4-way, 6-way |
| Rear Wheels | 4.80-8, DOT Approved 16" O.D. Road Tires |
| Hitch Coupler | 2" Ball with Safety Chains |
| Safety Chains | Standard |
| Max Towing Speed | 45 mph |
| Lifting Capacity of Log Lift Table | 700 lbs |
| Wedge Lifting Stroke | 5" |
| Hitch Handle | Standard |
| Open Operating Zone | Standard |
| Log Lift Table Attachment | Standard |
| Weight (lbs) | 912.7 lbs |
| Dimensions (L x W x H) Inches | 112.2" x 59" x 47.2" |
