

2" L X 8" W ALUMINUM RAMP KIT

SKU - 10102007

WARNING: Read carefully and understand all ASSEMBLY AND OPERATION INSTRUCTIONS before operating. Failure to follow the safety rules and other basic safety precautions may result in serious personal injury.

Intended Use

This aluminum loading ramp kit can quickly convert 2in. L x 8in. W boards into a sturdy, rust-resistant, all-purpose pair of ramps to load your ATV, motorcycle, lawn mower, etc., into a pickup truck bed or onto a trailer. The kit's strong, extruded aluminum construction resists corrosion.

Important Safety Information

⚠WARNING

1. Read and understand all instructions. Failure to follow all instructions may result in serious injury or property damage.
2. The warnings, cautions, and instructions in this manual cannot cover all possible conditions or situations that could occur. Exercise common sense and caution when using this ramp kit. Always be aware of the environment and ensure that the ramp kit is used in a safe and responsible manner.
3. Do not allow persons to operate or assemble the ramp kit until they have read this manual and have developed a thorough understanding of how it works.
4. Do not modify this ramp kit in any way. Unauthorized modification may impair the function and/or safety and could affect the life of the product. There are specific applications for which the product was designed.
5. Use the right tool for the job. DO NOT attempt to force small equipment to do the work of larger industrial equipment. There are certain applications for which this equipment was designed. It will be a safer experience and do the job better at the capacity for which it was intended. DO NOT use this equipment for a purpose for which it was not intended.
6. Industrial or commercial applications must follow OSHA requirements.

⚠WARNING

WORK AREA SAFETY

- Inspect the work area before each use. Keep work area clean, dry, free of clutter, and well-lit. Cluttered, wet, or dark work areas can result in injury. Using the ramp kit in confined work areas may put you dangerously close to cutting tools and rotating parts.
- Keep children and bystanders away from the work area while operating the ramp kit. Do not allow children to handle the ramp kit.

⚠WARNING

PERSONAL SAFETY

1. Stay alert, watch what you are doing, and use common sense when operating the ramp kit. Do not use the ramp kit while you are tired or under the influence of drugs, alcohol, or medication. A moment of inattention while operating the tool may result in serious personal injury.
2. Dress properly. Do not wear loose clothing, dangling objects, or jewelry. Keep your hair, clothing and gloves away from moving parts. Loose clothes, jewelry, or long hair can be caught in moving parts. Air vents on the tool often cover moving parts and should be avoided.
3. Wear the proper personal protective equipment when necessary. Use ANSI Z87.1 compliant safety goggles (not safety glasses) with side shields, or when needed, a face shield. Use a dust mask in dusty work conditions. Also use non-skid safety shoes, hardhat, gloves, dust collection systems, and hearing protection when appropriate. This applies to all persons in the work area.
4. Do not overreach. Keep proper footing and balance at all times.

Specific Operation Warnings

⚠WARNING

- Do not exceed the rated load capacity of 750 lbs. per ramp.
- Use ramps on a hard level surface.

⚠CAUTION

RAMP KIT USE AND CARE

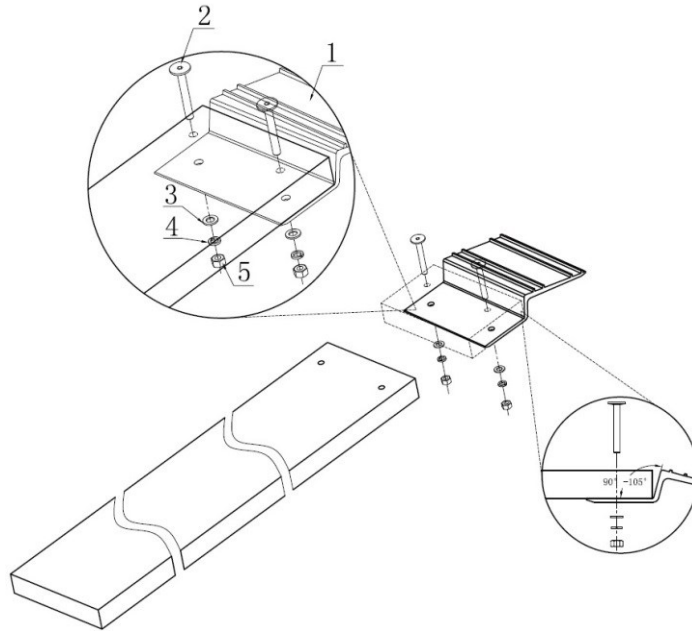

1. Do not force the ramp kit. Products are safer and do a better job when used in the manner for which they are designed. Plan your work, and use the correct product for the job.
2. Check for damaged parts before each use. Carefully check that the ramp kit will operate properly and perform its intended function. Replace damaged or worn parts immediately. Never operate the ramp kit with a damaged part.
3. Store the ramp kit when it is not in use. Store it in a dry, secure place out of the reach of children. Inspect the tool for good working condition prior to storage and before re-use.
4. Use only accessories that are recommended by the manufacturer for use with your ramp kit. Accessories that may be suitable for one product may create a risk of injury when used with another tool. Never use an accessory that has a lower operating speed or operating pressure than the tool itself.

Technical Specifications

Property	Specification
Rated Capacity	750 lbs. per ramp
Material	Aluminum

Assembly Instructions

Place a board on the ramp kit and secure using an M8x60" bolt (2), 8 flat washer (3), spring washer (4) and M8 nut (5).

Part List

Part No.	Item Description	Quantity
1	Ramp plate	2
2	M8x60" Bolt	4
3	8 Flat washer	4
4	Spring washer	4
5	M8 Nut	4

Maintenance

1. Maintain ramp kit with care. Inspect it periodically, and if damaged, have it repaired by an authorized technician.
2. For your safety, maintenance should be performed regularly by a qualified technician.
3. Clean the ramp after each use. Make sure any dirt, oil, grease, or debris is not present on the ramp.
