- 1 TRAP
- 2 PHEROMONE VIALS, 0.5mL EACH
- 1 MINI-BASKET

1 Trap Covers up to 3,380 Sq. Ft.

ACTIVE INGREDIENTS

Z-9-tetradecen-1-yl acetate  
Z-11-hexadecen-1-yl acetate

# Armyworm Pheromone Trap

Ready-to-Use

## QUICK FACTS

Pheromones are substances produced by insects which operate as a signal between individuals of the same species.

This product uses sexual pheromones as a lure placed inside a trap which mimics the substance produced by the female.

Lure attracts males which are captured in the Trap.

## OTHER FEATURES

- Unique patented process of pheromone micro-encapsulation
- Constant and extended rate (3 months per vial) of pheromone release for greater efficiency
- 100% biodegradable ingredients
- Easy storage, at room temperature
- Extended shelf life: 2.5 years

## DIRECTIONS FOR USE

**This packaging contains 2 Armyworm Pheromone Vials, 1 mini-basket and 1 Funnel trap.**

**Trap set up:** Place the mini-basket in the upper part of the trap. Put a drop of the product into the lower part. Snap the upper part of the trap into place. Empty the remaining contents of the vial into the mini-basket. The moths are attracted by the sexual pheromone, enter the trap, and are caught. After 3 months, repeat the process with the second vial.

For best results hang 5 ft above the lawn. One trap covers a radius of up to ~32 ft or 3,380 sq ft. Put out the trap when fall armyworm moths first appear in your area during spring/summer.

See the inner leaflet for more details on trap setup.

## STORAGE & DISPOSAL

Store in a well-ventilated place. Keep cool.

Store away from food and drink. Do not freeze.

Keep out of reach of children. Keep away from domestic animals.

Avoid release to the environment. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation. Take up liquid spill into absorbent material. Dispose of materials or solid residues at an authorized site.

## PRECAUTIONARY STATEMENTS

**CAUTION:** Ensure good ventilation of the workstation. Wear gloves, safety glasses, and protective clothing. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

### ENVIRONMENTAL HAZARDS:

Harmful to aquatic life with long lasting effects.

### FIRST AID:

#### If Inhaled:

Remove person to fresh air and keep comfortable for breathing.

**After Skin Contact:** Wash skin with plenty of water.

**After Eye Contact:** Rinse eyes with water as a precaution.

#### If Ingested:

Call poison center or a doctor if you feel unwell.

For question or comments, call toll-free 1-877-229-3724.
