Your wreath comes ready to hang.

- Remove the wreath from the box. If any parts of the wreath have been compressed from storage, gently use your fingers to brush them apart to give it a more “fluffed” feel.
- The wreath does not include hanging accessories. Use a wreath hook, wreath door hanger, nail, ribbon, etc. to hang your wreath.
- If using a hook, nail, or ribbon (or combination of nail/hook and ribbon) we suggest holding the wreath up to where you plan to hang it to see where the wreath looks best before hanging.

Enjoy your beautiful new decoration!
