PERFORMANCE *MEETS VALUE*

Get the job done with the FORCE-24, a trail camera that truly delivers bang for your buck. Hunt smarter, not harder, with customizable settings in a scouting setup that's ideal for areas without a cellular network connection. Catch wildlife movement in detail with videos that deliver two times the resolution of standard HD and include sound, or with high-resolution photos. Anything but basic, the FORCE-24 is the clear winner for anyone looking for value and performance.

KEY FEATURES

LET SPYPOINT SCOUT FOR YOU: get the intel you need to pattern wildlife and increase your chances of success with quality captures saved on your camera's SD card.

2K VIDEOS WITH SOUND: capture detailed videos with sound that deliver two times the resolution of standard HD.

HIGH-RESOLUTION PHOTOS: opt for photos to get image quality that rivals more expensive options, delivering crisp shots of your target species.

NO PLANS OR COMMITMENTS: invest in your passion without committing to the costs of data transmission plans or cellular equipment.

EASY SET UP: set up your camera quickly with a configuration screen to format the SD card and manage your settings.

CUSTOMIZE YOUR SETTINGS: fine-tune your scouting with features like 5-photo bursts in Multi-shot mode, photos at your preferred interval with Time-Lapse, and photos at your preferred interval as well as when the camera's detection sensor is triggered with Time-Lapse+.

CLEAR NIGHT PHOTOS: night vision low-glow LEDs capture bright, crisp night footage without alerting wildlife.

TWO-YEAR WARRANTY: enjoy peace of mind knowing that SPYPOINT's "Know You're Covered" guarantee protects your investment.
