

Part # 77003

agralink™
GATEWARE

For round tube gates of 1-5/8" to 2" OD

- Prevents gate from swinging and sagging
- One-handed operation
- Padlock compatible
- Easy installation (wood screws not included)
- Galvanized corrosion resistance

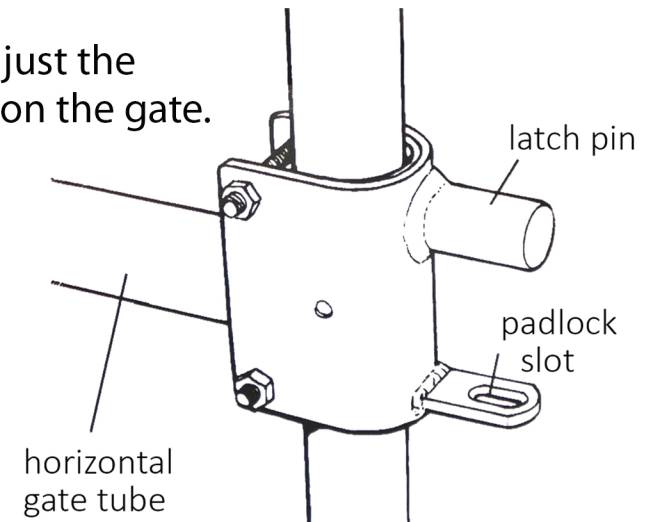

One-Way
Lockable
Gate Latch

Mounting Instructions

(1) Use the nuts and bolts provided to attach the latch pin assembly onto gate at the first or second horizontal tube above center height. Use a bolt above and below the horizontal tube as shown in the drawing. Mount with horizontal tube centered between bolts to allow for later adjustments. For 1-5/8" tubes, use the two shims provided in the latch pin assembly.

(2) Close the gate and mount the latch on the post, aligning it so the latch pin on the gate slides into the latch on the post. Mount with appropriate wood screws (not provided).

(3) If necessary, adjust the height of latch pin on the gate.
