

Smartliner products carry a limited lifetime warranty that is guaranteed to the original purchaser only and is not transferable. The warranty guarantees that the product will not break, tear, or bend out of shape under regular use while remaining in the original vehicle in which it was installed. Smartliner will provide warranty service to all Smartliner floor and cargo liner products that break or tear due to manufacturer defects. Non-qualifying events include intentional damage, mold caused by wet carpet, and damage caused by an outside force, such as an animal chewing on the liner or the liner incurring damage while not installed in the vehicle.
