# STRUCOMIX SENIOR

Fiber rich feed for senior horses

- > With puffed & extruded cereals
- > Optimal gut & immune health
- > No oats
- > Extra fiber

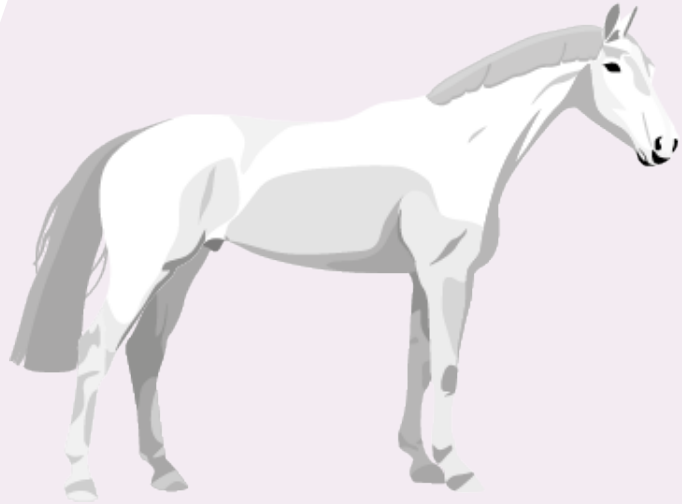

20 KG / 44 LBS

SPECIAL CARE

# About Strucomix Senior

Cavalor Strucomix Senior is a high-fiber, easily digestible feed designed for senior horses or those needing extra nutritional support. With elevated levels of fat and protein, plus added digestive enzymes, prebiotics, probiotics, and premium vitamins and minerals, it's also an excellent choice for hard keepers or performance horses requiring added condition and stamina.

## What makes Strucomix Senior unique?

With puffed & extruded cereals

Puffed grains and extruded pellets improve starch digestibility, making energy release slower and safer. This reduces the risk of digestive upset and helps senior horses absorb more nutrients from less feed—supporting weight maintenance and muscle condition.

Optimal gut & immune health

Enriched with prebiotics and probiotics to nourish a balanced gut microflora—key to strong digestion and a resilient immune system. Because a healthy horse starts from the inside out.

No oats

Provides steady, balanced energy without the spikes—ideal for keeping your horse focused and manageable.

Extra fiber

Added long fiber slows down eating, encourages chewing for natural tooth wear, and boosts saliva production. It also stimulates gut motility for optimal digestive health and function.

# Advice

## Feed as you need

The foundation of good nutrition for your horse is adequate forage and access to fresh drinking water. Supplement this base with concentrates or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune your feeding program.

### Feeding recommendations for Cavalor Strucomix Senior

**We recommend a minimum of 0.35 lbs to a maximum of 0.7 lbs per 100 lbs body weight per day. For a 1000 lbs horse this means a minimum of 3.5 lbs and a maximum of 7 lbs per day.** Divide the concentrate feed over several portions per day, preferably after feeding forage.

# Ingredient Statement

Soybean Hulls | Wheat Middlings | Puffed Barley | Heat Processed Soybeans | Suncured Chopped Alfalfa | Puffed Corn| Barley Flakes| Molasses | Soybean Meal | Soybean Oil | Flaxseed | Dehydrated Alfalfa Meal | Canola Meal | Ground Corn | Pea Flakes | Salt | Ground Wheat | Sunflower Seed Meal | Calcium Carbonate| Dried Aspergillus Oryzae Fermentation Extract | Dried Trichoderma Longibrachiatum Fermentation Extract | Dried Bacillus Subtilis Fermentation Extract | Yeast Culture | Yucca Schidigera Extract | Vitamin A Supplement | Vitamin E Supplement | Vitamin D3 Supplement | Choline Chloride| Iron Sulfate | Zinc Sulfate | Manganese Sulfate | Copper Sulfate | Betaine Hydrochloride | Manganese Glycine Complex | Niacin Supplement | Zinc Glycine Complex | Calcium Pantothenate | Copper Glycine Complex | Riboflavin Supplement | Calcium L-Ascorbyl - 2-Monophosphate | Iron Glycine Complex | Thiamine Mononitrate | Folic Acid | Calcium Iodate| Pyridoxine Hydrochloride| Cobalt Carbonate| Sodium Selenite | Tocopherols and Citric Acid (preservatives) Biotin | Selenium Methionine Complex| Vitamin B12 Supplement
