

A SMARTER WATERER

EFFICIENT DESIGN. PRACTICAL FEATURES. BUILT TO LAST.

PRODUCT OVERVIEW

The Century Products Automatic Waterer is designed to provide reliable hydration for livestock year-round with durable and efficient features. Constructed with polyethylene for UV and weather resistance, it operates without electricity and withstands extreme temperatures. Featuring 4 ball-style drinking wells, premium gaskets for insulation, and a specially-designed ball rim to prevent freezing, this waterer ensures consistent water flow in any season. Easy, tool-free maintenance and a 7-year warranty make it a dependable choice for your operation.

KEY FEATURES

- ✓ No electricity required.
- ✓ Polyethylene construction provides UV and weather resistance.
- ✓ Equipped with a Jobe Topaz Compact Float Valve for superior pressure.
- ✓ Premium foam insulation withstands extreme temperatures, ensuring water access year-round.
- ✓ Heavy-duty gaskets on lid, interior seal points and base provide maximum insulation.
- ✓ Raised knob in ball rim prevents freezing, keeping water flowing.
