

VIOLET MIST® CHASTETREE

VITEX AGNUS-CASTUS 'BAILTEXFOUR' PP36,066

Violet Mist Chasetree boasts a tight habit and a profusion of blue-purple flowers in early summer. The flowers are a favorite for various pollinators in the garden and will naturally rebloom until fall. Maturing to only three to four feet tall and wide, Violet Mist is more compact than other varieties and will fit perfectly into a small area or urban lands.

Deciduous- Foliage loss in winter and new growth in spring
