

Ringo® Double Pink Rose

Rosa x

Ringo Double Pink rose brings a cheerful presence to the garden, with loads of semi-double pink flowers accented with bright yellow stamen surrounded by a distinctive wine-stained eye. More than just a pretty face, it is also very hardy, with glossy foliage that exhibits excellent black spot resistance. Dark green foliage accents the flowers and stays clean and healthy through the season.

Why grow Ringo Double Pink rose? Simple beauty; Modern-day performance and disease resistance; Continuous blooms during the summer; Continuous Bloom or Rebloomer; Long Blooming; Heat Tolerant; Deadheading Not Necessary

CHARACTERISTICS

Plant Type: Shrub

Shrub Type: Deciduous

Garden Height: 24 - 36 Inches 61cm - 91cm

Spacing: 24 - 36 Inches 61cm - 91cm

Spread: 24 - 36 Inches 61cm - 91cm

Flower Colors: Pink; Light Pink with Red Eyes

Foliage Colors: Dark Green

Habit: Upright

Container Role: Thriller

PLANT NEEDS

Light Requirement: Sun

The optimum amount of sun or shade each plant needs to thrive: Full Sun (6+ hours), Part Sun (4-6 hours), Full Shade (up to 4 hours).

Maintenance Category: Moderate

Blooms On: New Wood

Bloom Time: Summer through fall

Hardiness Zones: 4a, 4b, 5a, 5b, 6a, 6b, 7a, 7b, 8a, 8b, 9a

Water Category: Average; Needs good draining

Uses: Border Plant; Container; Cut Flower; Landscape; Mass Planting

Uses Notes: Mass plantings; hedges; mixed borders; foundation plantings; cottage gardens

Maintenance Notes: These easy-care roses defy conventional expectations of what a rose needs to thrive in your landscape. To keep it looking great, simply prune back by at least one third its total height each early spring, just as the new buds begin to emerge on the stems. Make your cut just above a thick, healthy bud, as these produce the most vigorous growth. It can also be fertilized at this time with a granular rose fertilizer. The plant may be deadheaded if desired, but this is not required for continuous bloom.
