Mucho Gusto®

Abelia x grandiflora

You'll be pleased to make the acquaintance of Mucho Gusto abelia. This tidy, easy-care shrub brings the color and pizazz of variegated foliage to your landscape or garden, providing color from spring through fall. It's especially nice for brightening up shady spots. In summer, it is in bloom continuously, with fragrant white flowers that attract butterflies and hummingbirds. Like other abelias, it's heat tolerant and deer resistant. Little to no pruning is required, though it may be shaped if you wish.

Why plant Mucho Gusto™ abelia?

- Constant color
- Tough, easy-care plant
- Compact habit

CHARACTERISTICS

Plant Type: Shrub
Shrub Type: Deciduous
Height Category: Medium
