

SAFETY INSTRUCTIONS

- 1. Ensure the dehumidifier's **ON/OFF** switch is set to **OFF** when the unit is not in use.
- 2. DO NOT place the power cable in a wet or damp place. Avoid covering the cable.
- 3. Avoid placing power cable in areas where it can become a tripping hazard.
- 4. Avoid using extension cables as they may overheat and cause a fire risk.
- 5. Keep the front air inlets and side air outlets free from blockages.
- 6. Do not place the dehumidifier too close to other objects. ALWAYS keep the dehumidifier in an upright position to avoid leaks.
- 7. NEVER place anything on top of the dehumidifier. Do not cover it while in use.
- 8. ALWAYS empty the water tank before storing the dehumidifier away.
- 9. Dispose of water collected from the dehumidifier. This water is not drinkable.
- 10. This dehumidifier is not a toy. Children and pets should be supervised when the dehumidifier is in use.

Dehumidifier
USER MANUAL

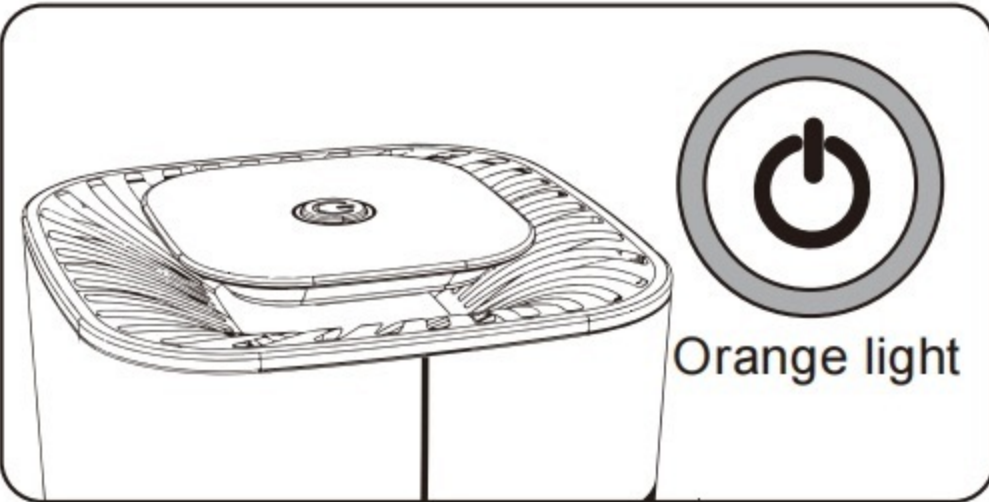

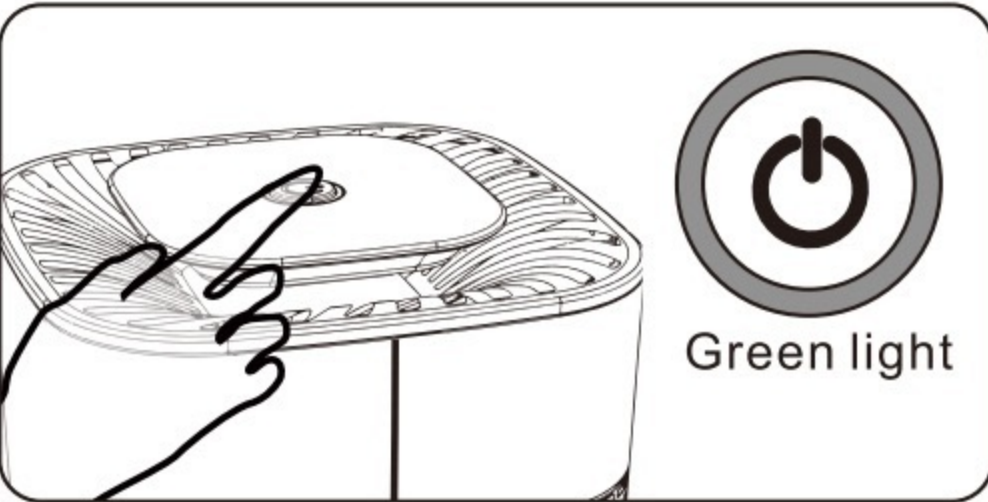

Model: DHF-3201

GETTING TO KNOW YOUR DEHUMIDIFIER

- 1. Connect the power cable to the socket.
- 2. Switch the dehumidifier on using the ON/OFF Button. The green light will turn on. To turn off the dehumidifier, press the ON/OFF Button again.

When the water tank is full, the yellow light will turn on, and the dehumidifier will turn off automatically.

PRODUCT SPECIFICATION

- Model Name: Dehumidifier
- Size: 145*145*240mm
- Input: DC9V 2.5A
- Power: 23W
- Volume: 800ml
- Working Capacity: 300ml/D (30°C, RH80%)
- Applicable Ambient Temperature: 10-50°C
- Coverage Area:<15m²

This dehumidifier uses Peltier Technology (not compressor) to make it lightweight and quiet. It is perfect for small and medium sized rooms and poorly ventilated areas that are susceptible to damp odors and fungus. Using this dehumidifier will help to eliminate unwanted moisture from the air.

CLEANING

Ensure the dehumidifier is off and unplugged from the wall socket. Use a soft cloth to clean away any dust or debris from the surface of the unit and air inlets.
