

# Cuddy® Grip Kit

Take the Cuddy® onto your boat or load it into a truck bed without worry of it sliding around! The kit is made from non-skid rubber material to provide a secure grip and stability on slick surfaces. Now follow along with our easy installation to see how you can attach and detach the grip kit in seconds!

## Set Includes:

2x Grip Stabilizers

4x Brackets

4x 15mm Bolts

1x Ball End  
Allen Wrench

## One-Time Bracket Installation:

Once installed, the Brackets can be left on permanently and will not affect the Cuddy® floating or towing function.

1. With your Cuddy® empty, flip it over and locate the bolts under the T-Latches and remove all 4 using the provided Allen Wrench.
2. Place the Brackets onto the Cuddy® as shown and tighten with the included longer 15mm bolts (do not reuse old bolts). **Slowly hand tighten with the included Allen Wrench until you feel the bolt stop. Do not overtighten .** Repeat for all 4 Brackets.

## Attaching the Grip Kit:

Install in seconds (no tools required) for secure grip on slick surfaces such as boats or truck beds.

1. Unfasten the straps on the Grip Kit. Tilt the Cuddy® up and slide the Grip Kit in underneath, so the nubs on the kit slide into the corresponding Cuddy® notches. Either orientation will work.
2. Feed the strap through the Bracket bar and fold it over to secure it. Repeat for all sides, then confirm the Grip Kit is secure before use.

### Towing Tip:

We recommend the Grip Kit be removed when towing in water to reduce drag and prevent unintended dislodgement

### Floating Tip:

The Grip Kit does not have to be removed for stationary floating

### Care Instructions:

Rinse the Grip Kit after using in salt water

### Customer Service:

If you have any questions or concerns regarding your GoSports Outdoors® Cuddy® Crawler™ Set, please reach out to us at [info@pandpimports.com](mailto:info@pandpimports.com) and we will get back to you right away. We stand behind our products 100% and want to make sure you get the full enjoyment that you paid for.
