

PRO-LOGIX

12 Volt, 1.5 Amp Underhood Battery Charger/Maintainer

Model No. 1002

12 Volt, 1.5 Amp Underhood Battery Charger/Maintainer

+ FLOODED BATTERY™

AGM™

SPIRAL SW WOUND

GEL CELL™

DEEP CYCLE™

MARINE BATTERIES

Features:

- 12 Volt Operation
- 1.5 Amp Charging Rate
- Fully Automatic Operation
- Advanced Charging Logic
- Reverse Polarity Protection
- Battery Fault Detection
- Battery Mounting Hardware

PRO-LOGIX battery chargers from **SOLAR** are designed to provide continuous operation in a wide variety of professional/industrial battery service environments. They combine fully automatic operation utilizing a proprietary multi-phase charging process with the ability to properly charge multiple battery types. Advanced charging logic, robust components, quick set-up and smart display feedback mean effective and efficient charging for your operation.

Model 1002 is perfect for keeping seasonal use and fleet batteries in top condition. It includes a battery mounting kit, enabling quick, easy and permanent mounting on a vehicle battery. Its case is sealed to prevent dust, water or other fluids from penetrating it, enabling a long service life. It has a short power cord, allowing quick attachment of an extension cord to commence charging. Charging is easy – simply plug it in and walk away. The automatic **PRO-LOGIX** process takes it from there, fully charging the battery and restoring reserve capacity.

ADVANCED CHARGING LOGIC

Temperature Compensation
