INSTRUCTION MANUAL

THANK YOU FOR PURCHASING THE INCREDIBLE HYDROSTEEL™ PRO!

The HydroSteel™ Pro Hose is the next generation in high performance hoses. Our triple layer Fusion Technology combines: precision wrapped flexible construction grade 304 stainless steel, ultra durable latex rubber hose and tough grade outer polyester weave. Ordinary hose fittings are easily crushed but the HydroSteel Pro Hose's commercial quality solid brass fittings remain solid no matter the pressure. The HydroSteel is also weather proof, it can withstand extreme heat and cold temperatures. Comes with an easy connect nozzle.

- Rust and Corrosion Proof
- Lightweight, compact and flexible
- Triple layer fusion technology

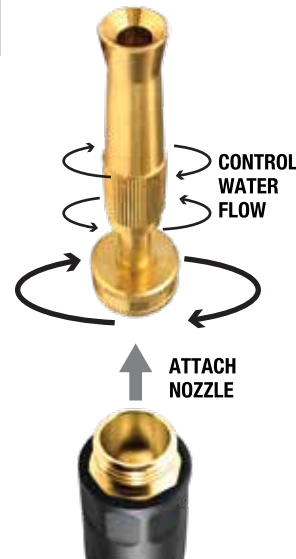

- Enhanced steel hose interior
- Kink resistant
- Solid brass fittings

STOP!

PLEASE READ THE INSTRUCTIONS AND IMPORTANT INFORMATION BELOW BEFORE USING YOUR HYDROSTEEL™.

USING YOUR HYDROSTEEL PRO WITH SPRAY NOZZLE (INCLUDED)

1. Before using your HydroSteel Pro, make sure the rubber washer is firmly set inside the female coupling. This will prevent leaking.
2. Attach the female end of the HydroSteel Pro to the water source.
3. Attach a straight Spray nozzle (included) to the male end of the HydroSteel Pro hose by twisting it clockwise, as shown on Diagram on right.
4. Turn on the water to use the hose. Control the water flow by turning the top of the nozzle. Turn clockwise or counterclockwise to adjust the flow of water. See Diagram on right.
6. When you are finished using the HydroSteel Pro, make sure to turn the water OFF at the source spigot.
7. Allow the water in the HydroSteel Pro to drain. If you are using a nozzle then open the nozzle.

USING YOUR HYDROSTEEL PRO WITH A SPRINKLER

1. Attach your sprinkler to the male end of the HydroSteel Pro.
2. Place your sprinkler in the desired place in your yard or garden.
3. For each use, slowly open the water valve to regulate water pressure gradually in the hose. Your sprinkler will work the same way it works with any ordinary hose.

IMPORTANT INFORMATION: This hose is intended for routine watering applications

- Do not run hot water through this hose.
- Do not leave the water turned ON with the HydroSteel under pressure when not in use.
- Drain your hose in the summer when you are not using it.

WARNING:

THE HYDROSTEEL IS NOT INTENDED FOR DRINKING WATER USE.

Do not drink from this hose. The HydroSteel Pro hose is a tool that is used and stored outdoors and can be exposed to conditions that can be harmful to humans such as:

- Mold & bacteria
- Lawn and Garden chemicals
- Animal waste
- Insects
- Stagnant water
- Other harmful substances
