

POWERING UP YOUR BULLSEYE RECHARGEABLE TIRE INFLATOR

VIA RECHARGEABLE BATTERY (FOR PORTABLE USE)

1
TO CHARGE: Connect one end of USB-C cable to unit and the other to any USB port. When the LCD panel displays 100% (full charge), disconnect the cable.

2
Remove the Air Hose with Schrader valve connector from the storage track.

3
Connect the threaded metal end to the Inflator. Screw it in clockwise.

VIA THE 12V DC CAR POWER CORD

1
Remove the Air Hose with Schrader valve connector from the storage track.

2
Connect the threaded metal end to the Inflator. Screw it in clockwise.

3
Connect one end of the 12V DC Car Power Cord to the inflator.

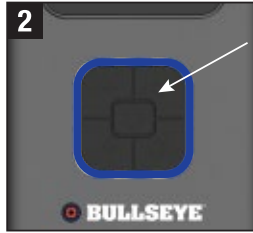

- 4**
- Connect the 12V DC Car Power Cord into the DC socket in your car.
 - When ready to use, power the car on. The light on the end of the 12V DC Car Power Cord will light up green indicating power connection and LCD display will illuminate. Note: Always operate vehicle outdoors.

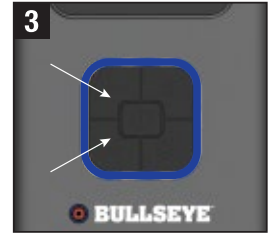

INFLATION INSTRUCTIONS

Press and hold down the button for 2 seconds to turn the inflator on.

Press the button continuously until the desired pressure format displays.

Press the or buttons to set the pressure level.

Attach the end of the Schrader valve connector onto the tire's valve stem.

Press the button to start the pump motor, it will inflate the tire to the set pressure level and will shut off when done.

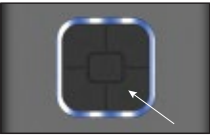

FOR 12V DC USE: Press the button to start the pump motor and the light on the end of the 12V DC Car Power Cord will flash red. It will inflate the tire to the set pressure level.

Once it has been reached, the inflator will turn green and a long beep will sound. The beeping sound will remain for up to 5 minutes and will turn off automatically unless the 12V DC Car Power Cord is unplugged from the power source sooner.
