

# RUTLAND®

Trusted in the home and by professionals for over 130 years

## Rainbow Flame® Crystals – No. 715, 715C, 715S

**RUTLAND Rainbow Flame® Crystals** are a family favorite – enjoy beautiful blue and green flames! Use indoors or outdoors in any wood burning fire. Great for fireplaces, wood stoves, campfires, chimineas, or fire pits!

- One-time use 1.45 oz Long Toss-In Stick (715S), 1.5 oz Short Toss-In Stick (715C), or 1 lb. Pourable/Shake-able Canister (715)
- Indoor and outdoor use
- Not for use in gas units or in fires that will be used to prepare food

### Pourable Canister:

Carefully shake approximately 1/2 cup of crystals at the base of a strong flame with a hotbed of coals. As the color subsides, simply add more crystals to reinvigorate the colorful flames.

### Toss-in Sticks:

Do not attempt to open the tube. Toss the entire stick onto a brisk fire or hotbed of coals. Use the short stick for longer, more concentrated rainbow flames in smaller fires and use the long stick to spread out flames in larger fires. Toss-in Sticks burn to ash.

**Consistency:** Granular

**Flashpoint:** N/A

**Storage/Handling:**

Store in cool, dry place

### Limitations:

Do not use in fires that will be used for cooking. Use only in vented appliances. If fire is not burning well, the flames will not display colors. Do not use in gas fireplaces. Do not use in pellet stoves.

### Warranty:

A minimum 12-month warranty covers all **RUTLAND** Products. Products that are found to be defective within this time frame will be replaced or refunded at the purchased price. Please contact the **RUTLAND** Customer Service Department at 800-544-1307 or [sale@rutland.com](mailto:sale@rutland.com) for specific product warranties.

**⚠ WARNING:** This product can expose you to chemicals, including Crystalline Silica, which is known to the State of California to cause cancer. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)
