

Crafting Made Easy

The Campbell Hausfeld Sand Blaster is ideal for removing rust, scale and paint from small parts and equipment. The siphon-feed spray gun is designed to spray most abrasives including glass beads, aluminum oxide, steel grit, silicon carbide, walnut shells and more. Easily removes rust, scale, and paint from parts and small equipment leaving a satin finish ready for paint or further pre-treatment. Use a bucket or bag to draw abrasive materials into the sand blaster.

Designed with you in mind

The AT122601AV is designed to spray most abrasives including glass beads, aluminum oxide, steel grit, silicon carbide, walnut shells, and more

- **10ft. Hose with Steel Pick-up Tube**
Draws abrasive from bucket or bag
