Snow Fence

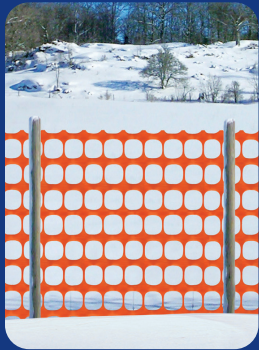

DESCRIPTION

Tenax Snow Guard is a cost-effective, high-performing solution to snow drift containment. Reliably protecting buildings, schools, and roads from extreme weather conditions.

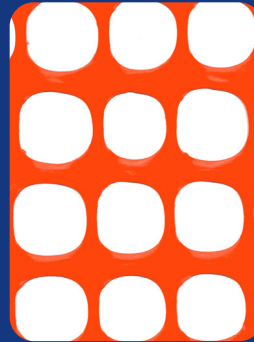

Tenax Snow Guard is an investment in safety conditions for pedestrians, drivers, and property. The high-quality polyethylene mesh is designed specifically for wind resistance, rust resistance, recyclability, and reusability.

Tenax Snow Guard Fence has a long-lasting color that allows drivers and pedestrians to have better visibility as they travel in inclement weather. This budget-friendly snow fence is lightweight and easy to install, move, and store when necessary yet maintains high rigidity due to its unique design.

USES

- Barrier against drifting snow
- Building and road protection against snow
- Useful to reduce wind speed

BENEFITS

- UV Stabilized for long-lasting color and performance
- Lightweight, easy to carry and store
- Reusable and recyclable
- Highly visible
- Strong: 89-130 lb. breaking load
- Won't rust, rot, or corrode and will not weaken if exposed to extreme temperatures
