- The Timber Jack is for outdoor use ONLY
- Check Timber Jack before every use for signs of wear. **DO NOT** use if any parts are damaged or missing. Replace damage or missing parts before use.
- This Timber Jack is designed to handle logs up to 12" diameter TO HANDLE LARGER LOGS, a LARGER HOOK can be purchased.

Call Customer service at 218-943-6290

Assembly Instructions: (see diagram below)

Step 1. Connect the 2 piece Steel Handle (#1) by threading the top and bottom of handle together until tight.

Step 2. Attach Hook (#5) to the Hook Mount (#4), insert the hook into top slot and secure with Bolt (#8), Washer (#7) and Nut (#6).

Step 3. Attach Holding "T" Frame (#3) to Steel Handle (#1), insert into bottom slot and secure with Bolt (#8), Washer (#7) and Nut (#6).

Step 4. Be sure all connections are fully tight before use.

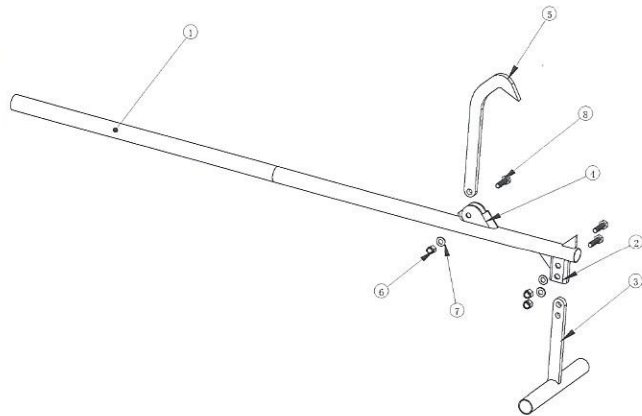

Warnings and Cautions!

- 1) Be sure to tighten all nuts and bolts prior to first use, and check them periodically for loosening.
- 2) Ensure that the steel handle is threaded into the tube body firmly to avoid sliding off the handling. Incomplete assembly can cause logs to slip and fall onto the user, causing injury.

Parts Diagram
