- Easy-to-use

HOW TO USE

1 Set Snap Trap by squeezing the back side as shown. While baiting isn't required, the use of TOMCAT Mouse Attractant is recommended. Place a small pencil eraser-sized amount of attractant onto the back corner of the yellow tongue.

2 Place against walls where mice travel. For best success, place between a mouse's nesting place and food source.

3 For mouse disposal, just squeeze the back of the trap - your hands never touch the mouse. Now it's set and ready to be used again.

EPA EST. NOs. 12455-WI-1^k,
12455-WI-2^P, 12455-WI-3^W
Superscript is first letter of the lot number.
