

Installing Trimmer Line

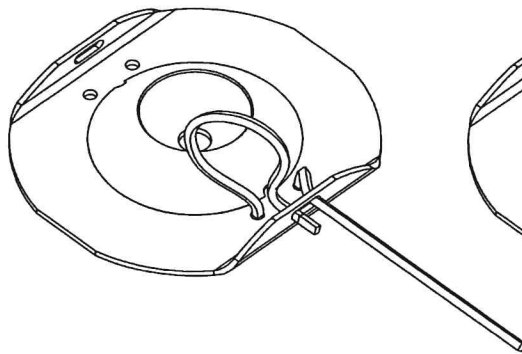

Important! Use the proper length of line. Using a line too long for the unit will cause stalling and unacceptable operation.

Use 18" Trimmer Line Part Number **P3618**

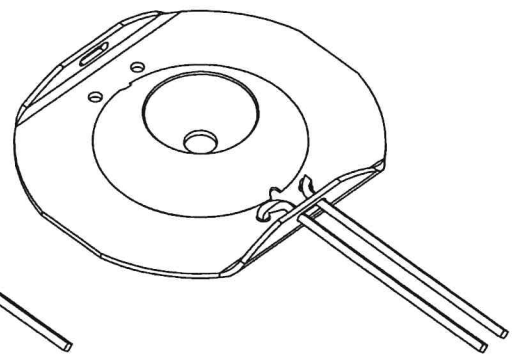

- Loosely fold trimmer line in half.
- Insert line through the bottom holes of the cutting disc (Step 1).
- Bring ends around and through the slot in the cutting disc flange (Step 2).
- Pull ends to tighten loop (Step 3).
