

Installing Trimmer Line

Important! Use the proper length of line. Using a line too long for the unit will cause stalling and unacceptable operation.

5+ HP use 18" String

Pre Cut Line Purchase **P3618**

- Loosely fold cutter line in half.
- (1) Place loop of line against outside of loop on the trimmer head.
- (2) Bring ends around and through the loop and over the cutter line loop.
- (3) Pull ends to tighten loop.
