

9 oz. —

IMPORTANT:
Follow Label
Directions Exactly!

DILUTION DIRECTIONS

- 1) Shake well.
- 2) Dilution rates are as follows:

ONE QUART:

3 ounces concentrate to
29 ounces water.

ONE-HALF GALLON:

6 ounces concentrate to
58 ounces water.

6 oz. —

IMPORTANT NOTE: For desired results, mix exactly according to label dilution rates. Too much Laser Sheen® Concentrate may produce a sticky or gummy film. Too little will produce a watery product that will not give your horse that beautiful Laser Sheen® gloss.

Laser Sheen® Concentrate may be premade in large quantities, stored in a closed container, then shaken and poured into a bottle with sprayer.

3 oz. —

**SHAKE WELL
BEFORE USING**

Apply Laser Sheen® Dazzling Shine & Detangler using a spray mister to the coat, mane and tail. Spray a fine mist over entire horse until coat, mane and tail are damp. Then hand stroke in direction of hair. Allow to dry before additional brushing, toweling or hand rubbing.

LASER SHEEN® CONCENTRATE

*Dazzling Shine
& Detangler*

**Net Contents 12 fl oz (355 ml)
MAKES ONE GALLON**

LASER SHEEN® CONCENTRATE

Each 12 ounce container of Laser Sheen® Concentrate will make one gallon of ready-to-use product.

Laser Sheen® Concentrate is also available in a Ready-To-Use.
