

DIRECTIONS FOR USE

GENERAL INFORMATION: Follow instructions carefully for each use. Various surfaces have different porosities and must be treated accordingly for best results. Check surfaces periodically to determine when re-treatment is required. Product may be used indoors or outdoors. Can be applied outdoors to wet surfaces and still be effective, but for best results, apply in dry weather to ensure maximum surface penetration. Only a short drying time is required and rain will not affect product once it is dried. Clean up with soap and water.

USE RATES FOR WOODEN STRUCTURES, PAINTED OR UNPAINTED.

Spray on until surface is uniformly wet. This will usually provide long lasting results. Length of protection will vary, however, depending upon the surface porosity or type of paint. A second coating may be necessary on unpainted surfaces in order to completely fill pores. Check surfaces periodically depending on use and weather. Reapply as necessary.

USE RATES FOR PLASTIC AND OTHER NON-METALLIC SURFACES, SUCH AS FEED TROUGHES, ETC.

For best results, spray once a day over three days. However, since plastics can be either porous or extremely dense, trial and error may be necessary to determine the number of coats required. Reapply as necessary. No Chew™ has not been tested on vinyl fencing.

DO NOT APPLY TO METAL SURFACES.

STORAGE: Keep in original container. Extreme temperatures will not alter product effectiveness.

DISPOSAL: Do not contaminate water, food or feed with product. Open dumping is prohibited. Flush empty container with water and discard in trash – do not reuse.

WARRANTY STATEMENT

Since conditions of use, such as weather, compatibility with other chemicals, and application equipment and conditions will vary, seller makes no claims other than those stated on this label.

Taste**

NO CHEW™

Protects Wood and Non-Metal Surfaces

Controls Cribbing and Chewing

Clear, Non-Staining

Contains Natural Ingredients

Non-Flammable

For All Wood Surfaces, Indoors or Out

Long Lasting Protection

Contains no petroleum distillates.

SEE BACK PANEL FOR DIRECTIONS
AND PRECAUTIONS.

NET CONTENTS 32 fl oz (.946 L)

PRECAUTIONARY STATEMENTS

CAUTION: Avoid contact with eyes and skin. In case of contact, immediately flush affected area with water. Seek medical attention if irritation persists.

STATEMENT OF PRACTICAL TREATMENT First Aid Procedures

EYES: Immediately flush eyes with water. See a doctor if irritation persists.

SKIN: Wash affected area with lots of soap and water. See a doctor if irritation persists.

INHALATION: Always use product with adequate ventilation. If irritation occurs, move to area with better ventilation. If irritation persists, get medical attention.

INGESTION: Get medical attention immediately. Do NOT induce vomiting unless directed by a physician. Always wash hands and face thoroughly after using product, especially prior to eating or smoking.

ENVIRONMENTAL PRECAUTIONS

This product may be toxic to fish. Do not pour directly into any body of water. Apply outdoors only when weather conditions are favorable. Use only as directed on label.
