

Sweet PDZ HORSE STALL ReFresher®

Removes ammonia odor and absorbs

Lowers bedding cost by keeping

Safeguards your horse's respiratory

Made in the USA

Sweet PDZ is All-Natural and it Works!

- All-natural granular mineral
- Safe, fast-acting and superior odor capture and elimination
- NO perfumes, scents or chemicals
- Works great with all bedding & litters
- OMRI (Organic Materials Review Institute) Listed
- Sweet PDZ turns spent bedding and waste material into a nutrient rich ingredient to apply to compost and gardens

Sweet PDZ is safe & effective for:

- All small animal habitats
- Cat boxes
- Dog kennels/runs
- Rabbit hutches
- Chicken coops
- Sheep/lamb pens

Directions for Use

Horse Stall Application: As part of your daily stall maintenance, pick the stall as usual and remove the saturated bedding material. Then sprinkle the wet spots in each stall with about 1-3 cups of Sweet PDZ and cover with dry bedding.

Pet Usage Application: Apply a visible layer of Sweet PDZ on the base of the Pet habitat. Re-apply every couple of days or as needed to eliminate harmful levels of toxic ammonia & odors.

Sweet PDZ is neutral pH mineral and is safe to handle with bare hands. However, it is an absorbent so it will have a drying affect to the skin.

#1 Stall Deodorizer, since 1984
