

# OMEGATIN®

## PRODUCT DESCRIPTION

OMEGATIN is a proportionally balanced, complete, 15% protein, 20% fat, pelleted, nutrient-dense horse feed with an exceptionally low level of starch.

Available in 40-lb (#7666) and 20-lb (#8087).

## FEATURES AND BENEFITS

**20% fat** for high calories and low carbohydrates. The starch level is approximately 50% less than many popular "rice-bran" products, made possible due to highly digestible and specialized proprietary ingredients.

**Low starch** means reduced risk of gas colic, laminitis, and a lower glycemic response.

**Chelated trace minerals** for natural trace mineral bioavailability critical to optimum health and performance.

**Flaxseed** to provide omega fatty acids.

**Soft pellets** mean none of the digestive and feeding problems associated with meal; and ingredients are not exposed to the high temperatures and pressures of extrusion. It is ideal for horses with few or sensitive teeth.

**Selenium yeast** which has shown to have higher retention and digestibility than sodium selenite.

**Selenium and vitamin E** enhance the immune system, improve reproduction, overall health, performance, and appearance.

**Fixed component formula** ensures quality and consistency with no least-costing. NO substituted ingredients to challenge cecum bacteria, which improves digestibility and helps prevent cecal colic.

**Proper calcium-to-phosphorus ratio** helps prevent one heavily fortified nutrient from interfering with the availability of other nutrients.

**Supplemental lysine, methionine, and threonine** (the most-limiting amino acids in equine diets) offer the option of feeding as a top-dress supplement.

**MICRO-AID®** is a natural product designed to reduce ammonia odors, especially beneficial in confined situations.

**Research-proven** for peace of mind.

## FEEDING DIRECTIONS

Top-dress OMEGATIN at ½ pound up to 3-4 pounds per animal daily, along with the grain mix and roughage. The enclosed scoop holds ¼ pound of OMEGATIN. Provide clean water and salt free-choice.

The suggested feeding program is intended solely as a guide. The variables associated with management, environment, and breed may dictate changes in the animals' requirements.

**CAUTION:** This supplement contains supplemental copper. **DO NOT FEED TO SHEEP.**

## OMEGATIN®

An energy supplement for horses.

## GUARANTEED ANALYSIS

Crude Protein, min	15.0%
Lysine, min	0.8%
Methionine, min	0.2%
Threonine, min	0.5%
Crude Fat, min	20.0%
Crude Fiber, max	15.0%
Acid Detergent Fiber (ADF), max	18.0%
Neutral Detergent Fiber (NDF), max	30.0%
Calcium (Ca), min	0.65%
Calcium (Ca), max	1.15%
Phosphorus (P), min	0.7%
Salt (NaCl), min	0.3%
Salt (NaCl), max	0.8%
Copper (Cu), min	20 ppm
Selenium (Se), min	0.3 ppm
Zinc (Zn), min	100 ppm
Vitamin A, min	9,000 IU/lb
Vitamin D3, min	2,000 IU/lb
Vitamin E, min	200 IU/lb
Biotin, min	0.5 mg/lb
