**GT200**

**GT Safety Pump for Skydrol**

The GT200 with EPDM seals is built to safely handle Skydrol. These pumps are like PPE – personal protective equipment – no spills, no splashing, no leaks, no vapors. Made in the USA from robust materials, they are designed to provide years of service with Skydrol

- Best for viscosities like water
- Dispenses up to 4GPM
- Flow is good up to 270 centipoise

## Accessories Available:

- 5-Foot remote discharge nozzle for delivering liquids at a distance from the drum
  - Pneumatic adapter to eliminate hand pumping.
  - Adapter for use with 5-gallon jerry can of Skydrol.
