

THE ALL NEW

GAS GROWLER

LOOK FOR THE BLUE BOTTLE™

*BLUE PROPANE CYLINDERS ARE
A TRADEMARK OF IGNIK OUTDOORS

In 2018, Ignik introduced its first product, The Gas Growler™, after witnessing countless single-use green 1-lb bottles littering the Arctic and overflowing in National Park trash bins. The idea was simple: replace single-use propane bottles with a compact, refillable tank—one that's easier to use, more efficient, and eliminates waste from bottles that are far from green. With the addition of a durable case, The Gas Growler Deluxe™ became the perfect companion for outdoor adventures, fitting seamlessly into compact vehicles.

After years of building on this great idea, we are excited to release the next generation of the Gas Growler™ and the Gas Growler Deluxe™. These high-quality Ignik tanks push portable propane to the next level and come stamped with the Ignik Promise, carrying our commitment to creating better outdoor gear, reducing waste, and giving back to the planet we cherish.

As of today, Ignik estimates it's replaced nearly 1 million green bottles from the trash, and we look forward to continuing our mission of creating smarter ways to play outside longer.

Look For The Blue Bottle™
