## LED & UV FLASHLIGHT

### OPERATING INSTRUCTIONS

**BATTERY REPLACEMENT:** Install batteries by first removing tail cap. Place four AAA batteries in battery tray as shown. Insert battery tray with positive (+) end toward head of flashlight. Replace tail cap. Use alkaline batteries for maximum brightness and life.

Note: Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (NiCd, LiFeO<sub>2</sub>) batteries.

**PUSH BUTTON SWITCH:** Press button switch on side of flashlight to cycle through lighting modes: High / Low / Strobe / Flood / UV / OFF. Long press will activate High & Flood modes together.

**LIGHT POSITION:** The flashlight head can be rotated 90° so flashlight can be used as a pocket light.

**1-YEAR LIMITED WARRANTY:** This product is guaranteed to be free of defects in material and workmanship for one year from date of purchase to the original owner. If this product is defective, contact our Customer Service at 855-735-9922 or help@fairgameus.com for repair or replacement parts or return the product to store from which it was purchased. Guarantee does not include normal wear and tear, batteries or charging cords.

#### **⚠ WARNING**

To prevent damage to eyesight, never look into light when light is on. Do not shine light into the face of someone else.

Batteries must be recycled  
or disposed of properly

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

Warning: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
