Optional Accessories

Aiper Scuba N1 Max

Clean Higher, Shine Brighter

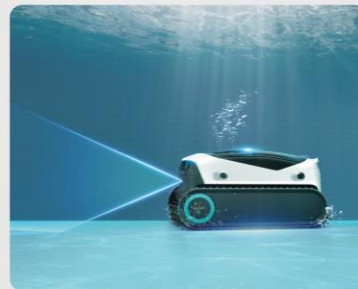

WaveLine™ 2.0 Horizontal Waterline Cleaning

The Scuba N1 Max cleans higher than previous models due to its enhanced WaveLine™ 2.0 technology, effectively scrubbing the pool's waterline for a thorough clean, making pool maintenance easier than ever before.

WavePath™ 3.0 Navigation Technology

The Aiper Scuba N1 Max's WavePath™ 3.0 adapts to your pool's shape, ensuring minimal repetition and maximum coverage for efficient, thorough cleaning.

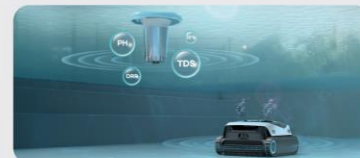

OmniSense™ Ultrasonic Sensor

We've gone ultrasonic! Scuba N1 Max's OmniSense™ technology offers quicker response times, superior adaptability, and obstacle detection from nearly 20 feet(6m) away, enhancing navigation and ensuring a seamless, collision-free clean.

Comprehensive App Monitoring for Blockage Detection, Maintenance Alerts, and Cleaning History Tracking

Underwater Communication with HydroComm Pro

Optional underwater communication, water quality testing, and surface retrieval.
